Investigative Report

2026-2566
Officer Involved Critical Incident - Jeffrey Sergent, [redacted] (S)

Date of Activity: 08/18/2026

Author: SA Robert Surgenor, Jr., #148

Narrative:

On July 7, 2026, the Seneca County Sheriff's Office requested Ohio Bureau of Criminal Investigation assistance in the investigation of an officer involved critical incident (OICI) that occurred during the attempted arrest of Jeffrey Sergent (Sergent). Sergent was deceased as a result of the OICI. One cellular device (Item #17 - Detailed in the "Submitted Items" section below) was submitted for processing to the Cyber Crimes Unit by Special Agent David Hammond (SA Hammond) for any evidence related to the crime of Aggravated Vehicular Assault; Vehicular Assault under §2903.08 of the Ohio Revised Code. A search warrant was obtained for this evidence item on July 10, 2026 through the Wood County Common Pleas Court signed by the honorable Judge Matthew L. Regar. Special Agent Robert Surgenor (SA Surgenor) was assigned to the investigation.

Submitted Items:

- 017 - Mobile Phone - Apple iPhone D94AP

Details:

Item #17 was an Apple iPhone 16 Pro Max (Model: D94AP) with serial number H72V7VW067. The device was connected to advanced cellular device extraction equipment capable of obtaining a true and accurate representation of the original media. The user and system data residing within the phone were successfully extracted from the device without error. Cellebrite Physical Analyzer version 10.9.0.3029 was used to parse the information obtained from the full file system extraction.

The iPhone had a device name of "iPhone" and an Apple ID of "jeffsergentwork@gmail.com". The device possessed two International Mobile Equipment Identifiers. The first IMEI was 358594368575486 and IMEI #2 was 358594368749578. This IMEI was a number assigned to the device and is used for identification purposes on the cellular device network that it is associated with. At the time of this report, the device had a cellular carrier association with T-Mobile. The device contained a Mobile Station International Subscriber Directory Number (MSISDN) of 14196190034. This MSISDN is a unique number assigned by the cellular provider and is typically used for the subscriber's cellular "phone number". The device also contained

an International Mobile Subscriber Identity (IMSI) of 311480123263683. This number is used for identification of the cellular device subscriber on the international cellular device network. The full forensic report was requested by SA Hammond and was attached in attached as "2025-2566 - Exhibit #17" for further review.

Conclusion:

The submitted cellular device was submitted for processing, was successfully imaged, and the data obtained from the device was parsed into a full cellular device forensic report for further review (See 2025-2566 - Exhibit #17).

NOTICE: This report addresses data that was extracted and converted to a human-readable format. No analysis of the content of the item(s) was conducted. Although BCI personnel can testify to the data extraction and/or rendering of data to a human-readable format, no testimony relating to the content of the data or device functions can be made by BCI personnel without additional analysis. If analysis of the data content and/or system functions is needed, please contact the BCI Cyber Crime Unit for additional assistance. A copy of the attachments will be retained by BCI.
