|---|---|
| **Investigative Activity:** | Review – Dash Camera Videos |
| **Involves:** | Willoughby Police Department (O) |
| **Activity Date:** | 09/01/2026 |
| **Activity Location:** | BCI - Richfield |
| **Authoring Agent:** | **SA John P. Tingley #154** |

**Narrative:**

On Tuesday, September 01, 2026, Ohio Bureau of Criminal Investigation (BCI) Special Agent (SA) John Tingley (SA Tingley) reviewed video footage from the Willoughby Police Department (WPD). SA Tingley was informed that the videos contained footage from the dash cameras recorded by the WPD related to the July 31, 2026, Officer Involved Critical Incident (OICI) which occurred at 5193 Robinhood Drive, Willoughby, Lake County, Ohio.

The listed narrative is a synopsis of the activities recorded on multiple WPD Dash Cameras and only documents those activities which the author deems to be the most relevant to the OICI. Furthermore, the narrative does not cover all of the activities, conversations, commands given by Officers, or radio traffic recorded. Nor is the synopsis a word for word translation, except where so indicated, of the conversations, radio traffic, and/or activities of the law enforcement, civilian witnesses, medical personnel present or WPD Dispatch. It is suggested that the full recordings be reviewed to clarify any content or contextual questions.

As there is no date or time stamp on any of the Dash Camera video recordings, any time listed will be the elapsed time from the beginning of that video.

SA Tingley reviewed the video recordings and noted the following:

## ADDITIONAL FACTORS FOR EVALUATING THE VIDEO RECORDINGS

There are numerous other factors that need to be considered when reviewing and evaluating the videos and audio recordings of this incident. Those factors are:

**A.** Video recording devices record within the video and sound capabilities available, and they record objectively. Video recordings lack the history, perspective, and interest of the people involved. The positions, angles, obstacles, lighting, and distance from the incident are also factors that need serious consideration.

This document is the property of the Ohio Bureau of Criminal Investigation and is confidential in nature. Neither the document nor its contents are to be disseminated outside your agency except as provided by law - a statute, an administrative rule, or any rule of procedure.

**B.** Video recording devices also record more information about a particular scene or incident than the person(s) involved in the incident can process during the critical incident. Video recording devices rarely record an event from the same perspective of the officer. It captures the action but not the perception, decision making, focus, or intent of the officer. Video recordings often miss tactile cues or other actions of a subject.

**C.** The speed of the incident is remarkable. The speed and complexity of rapidly evolving situation(s) that occur during use of force encounters are difficult concepts to comprehend by only watching the video.

The video footage is stored in the corresponding Axon Justice case file as part of Reference Item G – Recordings – Photographs from Willoughby PD > Subfolder: Dashcam. Please refer to the Reference Item for further details.
