

Prescription drug misuse is everywhere - including Ohio's businesses.

Employers can use the "A Dose of Reality" resources to create a safe work environment and prevent prescription drug misuse from impacting the workplace.

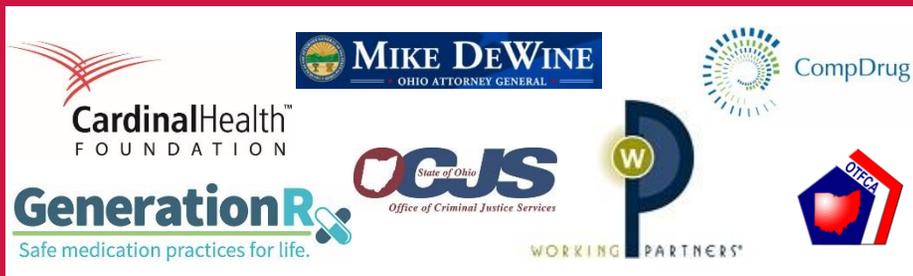

Visit GenerationRxWorkplace.com to access the free, downloadable resources to share throughout the office and with employees.

Unfortunately, prescription drug misuse can happen to law enforcement officers, too.

Many law enforcement officers are given prescription medications as a result of the high levels of injuries and stressors on the job, and 20-25% of officers are currently misusing or abusing their prescriptions. It's time for law enforcement officers to prioritize their own health so they can best serve their communities.

Visit OhioAttorneyGeneral.gov/eOPOTACourses to take the free "A Dose of Reality for Law Enforcement Officers" courses.

A Dose of Reality for Law Enforcement Officers is created and sponsored by:

Generation Rx Workplace is funded by the Cardinal Health Foundation in affiliation with The Ohio State University College of Pharmacy and CompDrug. Developed and Powered by Working Partners®.
