Investigative Report

2023-2234

Officer Involved Critical Incident – Corey Andrew (S)

Investigative Activity: Interview with Witness
Involves: Aaron Schott (O)
Date of Activity: 08/25/2023
Activity Location: Celina Fire Department – Business – 202 N. Main Street, Celina, OH 45822, Mercer County
Author: SA Tiffany Najmulski, #49

Narrative:

On 08/25/2023, Special Agent (SA) Tiffany Najmulski (Najmulski) went to the Celina Fire Department to meet with Fireman/EMT Aaron Schott (Schott). Schott was dispatched to the scene of the officer involved shooting at Eastview Park in Celina. The following is a summary of the interview which was digitally recorded and attached to the case file.

Schott stated the fire department received a call from dispatch to be on standby for a shots fired call at Eastview Park. As the firefighters began getting ready, they received another call from dispatch advising they had a victim. As the squad arrived, the Celina Police Department had a subject laying outside of the vehicle's driver side door. Police were holding pressure on a wound on his rear back/shoulder area. Schott said the patient, later identified as Corey Andrew, was pulseless, so they began CPR and treatment.

Schott drove the patient by squad to the hospital. The patient did not regain a pulse during transport, as far as Schott knew.

Schott said when he arrived, nothing seemed out of the ordinary on how the scene was being handled. Schott had nothing else to add and the interview concluded.

This report only summarizes the information deemed by the author to be of the most relevance to the investigation and does not purport to contain all questions and answers from the audio recording. Further, this report was placed in a chronology to aid the reader's overall understanding of the information elicited during the interview and may not be reflective of the actual sequencing of questions or responses. It is suggested that the full audio recording be reviewed to clarify any content or contextual questions regarding the information from the audio recording.
