## AGENDA

- 9 a.m.** | **Ohio Attorney General Dave Yost, Welcome**  
**9:25 a.m.** | **Leadership for a Lifetime: How the Past Prepares Us for the Future**  
**Paul Butler**, retired chief deputy sheriff, Paul Butler Presentations LLC

Butler, a 27-year veteran of law enforcement, has spent many years studying how individuals can influence their agencies, profession and communities. In this presentation, he shares how law enforcement officers develop the traits that turn them into respected and effective leaders. Every person can use the lessons of yesterday to overcome the challenges of today and capitalize on the opportunities of tomorrow.

- 11 a.m.** | **Investigative Strategies and Resources in Unsolved Homicide and Sexual Assault Cases**  
**Special Agent Supervisor Roger Davis**, head of the Bureau of Criminal Investigation's Cold Case Unit  
**Dana Forney**, supervisor, BCI Criminal Intelligence  
**Kristen Slaper**, supervisor, BCI DNA Laboratory

Advancements in DNA technology, cyber-forensics and criminal intelligence have given law enforcement officers and prosecutors new tools to investigate cold cases. This workshop examines strategies and resources – including how geolocational data and genealogy and familial DNA are used – to increase the likelihood of successful investigations.

- 1:15 p.m.** | **Honoring Law Enforcement**

We celebrate the many good things that law enforcement officers do, introducing this year's Distinguished Law Enforcement Award recipients and honoring those who lost their lives in the furtherance of the law enforcement mission to safeguard our communities.

- 1:30 p.m.** | **Building Mutual Respect and Community Trust**  
**Lt. Mike Hutson (retired)**, Mutual Respect Consulting  
**Jessica Colombi**, executive director of career services, Cleveland State University  
**Normella Walker**, director of diversity, equity and inclusion, Brigham Health in Boston

In the vast majority of interactions with the public, a law enforcement officer can control the outcome by using strategies that rely on understanding power, communication and personal biases to slow and de-escalate events. The panelists share evidence-based and cultural-competency strategies and look at how emotion and logic combine to determine action.

- 3 p.m.** | **Closing remarks**
