**Advanced Training for Ohio Peace Officers**

**October 2016**

## [Dynamic Vehicle Operations](#)

This one-day, driving course will focus on advanced vehicle operations, skid avoidance and recovery, emergency response, vehicle dynamics, and decision-making. Students will use OPOTA vehicles equipped with added safety features to perform dynamic and advanced practical exercises. Students should bring appropriate clothing in the event of poor weather, as most of the training day will be conducted outside.

Oct. 27, 2016 | 8 a.m. – 5 p.m.  
OPOTA Tactical Training Center  
1960 St. Rt. 42 SW

## [Electronic Surveillance](#)

Electronic surveillance can be a useful investigative tool. This course provides training in the legal and technical aspects of wiretapping and other electronic surveillance to satisfy the requirements of Ohio Revised Code Section 2933.64. Those who complete the course will be certified to use electronic surveillance and wiretaps. The training will be conducted by attorneys with extensive wiretap experience from cases in Hamilton County.

\* This course is restricted to active law enforcement officers only.

Note: Tuition is free for this course, but meals are not included. Students are welcome to eat in the cafeteria, which accepts cash only.

## [Empowerment and Productivity](#)

The workplace runs more smoothly when co-workers interact well together. This workshop presents four behavioral empowerment levels – victim, passive, active, and highly active – that hold the key to better interaction. Course participants who understand the levels can select the appropriate behavior when dealing with others to obtain optimum results. The workshop will cover how empowerment levels work and affect behaviors; relationships and employee interactions that affect creativity and efficiency; synergy of workplace productivity; definitions; identification of group empowerment; challenges and concerns; personal and leadership assessment; a review and understanding of the Empowerment Model; and an action plan.
