Background and Organization

The Ohio Attorney General’s Bureau of Criminal Investigation, known as BCI, is the state’s official crime lab serving the criminal justice community and protecting Ohio families. BCI also provides expert criminal investigative services to local, state, and federal law enforcement agencies upon request. With offices throughout the state, BCI stands ready to respond 24/7 to local law enforcement agencies’ needs at no cost to the requesting agency.

Staff at BCI work every day to provide the highest level of service. This includes special agents who are on call 24/7 to offer investigative assistance at crime scenes, knowledgeable scientists and forensic specialists using cutting-edge technology to process evidence to bring criminals to justice, and criminal intelligence analysts and identification specialists who help local law enforcement solve cases.

Experienced special agents, forensic scientists, and other law enforcement experts staff BCI’s three main divisions:

- Identification Division
- Investigations Division
- Laboratory Division

The Identification Division provides up-to-date records and state of the art technology to law enforcement and other criminal justice agencies throughout Ohio. The division serves as the central repository for all criminal records for the state of Ohio and maintains fingerprints, palm prints, photographs, and other information related to arrests within the state. The division is made up of the following units:

- The Conversion Unit processes criminal arrest and disposition transactions received by the bureau. This entails data entry, making corrections to submitted records, processing juvenile arrest submissions and updating the criminal repository with disposition information.
- Processing more than 1 million background checks a year, the Civilian Unit processes all fingerprint background check requests, including FBI background checks. The personnel in this unit scan manual cards and perform data entry of demographic data for the cards, update prior background checks upon request and answer questions from the public and background check vendors. Background check results, including criminal history records, are reported directly electronically or printed and mailed from this unit.
- The Quality Assurance Unit is responsible for checking the completeness and accuracy of the computerized criminal history database, and training law enforcement agencies throughout the state on Ohio laws as they relate to criminal history reporting. The unit also conducts audits of Webcheck agencies to determine the degree of compliance and adherence to policies established by the Attorney General’s Office and the FBI. The Unit also provides training on the National Webcheck system.
- The Technical Unit is responsible for the verification of all incoming civilian and criminal fingerprint transactions which have been identified with an existing BCI record. Fingerprint Examiners also classify, file and search fingerprint files. They also process all expungement and sealed record requests.
Automated Fingerprint Identification System and Computerized Criminal History Repository

The Bureau of Criminal Investigations Automated Fingerprint Identification System (AFIS) is the state repository of biometric fingerprint information. This database contains all fingerprints submitted to BCI by Law Enforcement agencies when a person is arrested and fingerprints submitted for the purpose of a background check. These databases are described below.

- **Criminal ID Information** – Fingerprint images submitted to BCI by Law Enforcement agencies with demographic and arrest information. Incoming arrests are compared to existing fingerprints in the database and verified by BCI Fingerprint Examiners if a match. The information is then added to the person’s existing record. If no match is found, a new record is established under a new BCI number.

- **Civil ID Information** – Fingerprint images and related data associated with subjects applying for a job which requires a state mandated background check. These fingerprints are searched against the Criminal ID information to see if there is a match. If a verified match is made, a record (rap sheet) will go out to the agency or individual requesting the information. Fingerprints are also submitted for Carry Concealed weapon licensing and follow the same procedure.

The Computerized Criminal History (CCH) is the repository of fingerprint based criminal arrest records submitted by Law Enforcement agencies and disposition information submitted by courts which is linked to the corresponding arrest information. This information is commonly referred to as the RAP sheet. Major data sets within CCH include:

- **Law Enforcement Arrests** – Consists of information submitted by law enforcement, typically when an arrest and booking event (or events) takes place. Information includes person demographics, charges, and data relative to the arrest/booking event. This information is mostly contributed electronically via live scan machines that electronically capture fingerprints and charges, then forward that information to AFIS, which then shares it with CCH.

- **Court Dispositions** – These are the outcomes of legal proceedings associated with the law enforcement charges. This includes prosecuting attorney actions and court dispositions (i.e. judgments, rulings, sentences). Ideally, dispositions are reported to the CCH repository electronically with the necessary demographic information to match them to the law enforcement arrest.

- **Custody Status** – This information typically indicates the whereabouts of a convicted person when remanded to the custody of the state corrections program. In Ohio, a live scan-based “intake” transaction provides proof that the subject arrived at a correctional facility. In some instances, the CCH repository may receive information regarding the movement of a person from one facility to another, or related logistical events (death, release, etc.).
• Court Supplements – On occasion, supplemental information relative to a person could be contributed from the court. This includes actions related to previous convictions that have been vacated, or instances when a person has been pardoned. These actions are processed using the supplemental functions of the CCH. Currently this information cannot be submitted electronically; the court reports these manually on a 2-71 disposition form.

Information contained in AFIS and CCH is used in the daily protection of the public and law enforcement. Information is used in confirming the identity of persons, in determining eligibility for civil rights and privileges, and in determining jail/prison sentence terms. If they are in error, unreliable or unavailable, the records can:

• Affect law enforcement officers’ safety during routine encounters.
• Cause out of state and Law enforcement agencies in other countries to misinterpret a criminal’s RAP sheet or possibly not find one
• Allow criminals to have access to vulnerable populations (child care, nursing homes, etc.).
• Allow prohibited persons to have access to firearms permits.
• Delay lawful purchases of firearms.
• Allow repeat criminals to have lesser sentences and incorrectly calculated jail times.

The information in CCH is only as good as the information that is submitted to the database by Law Enforcement and courts. It is essential that the information received is accurate and complete.
Court Reporting Requirements

In accordance with Ohio Revised Code (ORC) 109.60 (A)(3), every court with jurisdiction over criminal felony and escalating misdemeanor cases, must inquire as to whether the adult or child has been fingerprinted for this incident. If not, the court shall order the person or child to appear before the Sheriff or Chief of Police within 24 hours to have fingerprints taken. Furthermore, if fingerprints were not taken upon arrest, the court has the authority to have a person’s fingerprints taken at the time of sentencing or adjudication. Either of these actions will produce the arrest ITN that can then be used to submit the corresponding disposition information to CCH. 109.60(A)(3):

(3) Every court with jurisdiction over a case involving a person or child with respect to whom division (A)(1) or (2) of this section requires a sheriff or chief of police to take the person’s or child’s fingerprints shall inquire at the time of the person’s or child’s sentencing or adjudication whether or not the person or child has been fingerprinted pursuant to division (A)(1) or (2) of this section for the original arrest or court appearance upon which the sentence or adjudication is based. If the person or child was not fingerprinted for the original arrest or court appearance upon which the sentence or adjudication is based, the court shall take the person's or child's fingerprints or shall order the person or child to appear before the sheriff or chief of police within twenty-four hours to have the person's or child's fingerprints taken. If the court orders the person or child to appear before the sheriff or chief of police to have the person's or child's fingerprints taken, the sheriff or chief of police shall take the person's or child's fingerprints, or cause the fingerprints to be taken, according to the fingerprint system of identification on the forms furnished by the superintendent of the bureau of criminal identification and investigation and immediately forward copies of the completed forms, any other description that may be required, and the history of the offense committed to the bureau to be classified and filed and to the clerk of the court.

Law enforcement agencies should submit reportable offenses to BCI. A juvenile’s record is visible only to BCI personnel until an adjudication for a reportable offense is reported. Once a disposition is accepted to the record, that arrest becomes visible to law enforcement agencies and courts.

Reportable offenses

1. Offenses of violence

ORC Section 2901.01(A)(9)(a)

(9) “Offense of violence” means any of the following:

(a) A violation of section 2903.01, 2903.02, 2903.03, 2903.04, 2903.11, 2903.12, 2903.13, 2903.15, 2903.21, 2903.211, 2903.22, 2905.01, 2905.02, 2905.11, 2905.32, 2907.02, 2907.03, 2907.05, 2909.02, 2909.24, 2911.01, 2911.02, 2911.11, 2917.01, 2917.02, 2917.03, 2917.31, 2919.25, 2921.03, 2921.04, 2921.34, or 2923.161, of division (A)(1) of section 2903.34, of division (A)(1), (2), or (3) of section 2911.12, or division (B)(1), (2), (3), or (4) of section 2919.22 of the Revised Code or felonious sexual penetration in violation of former section 2907.12 of the Revised Code
Link to offenses of violence on AG’s website:

https://www.ohioattorneygeneral.gov/Files/Forms/Forms-for-Law-Enforcement/Offenses-of-Violence

2. **ALL FELONIES** should be reported

Law enforcement submits arrest information to BCI either electronically or via mail. In some counties law enforcement fingerprints the juvenile and forwards that fingerprint to the juvenile court. When the case is completed, the juvenile court then sends the disposition along with the fingerprint card to BCI if the adjudication is a reportable offense. If law enforcement submits juvenile arrests directly to BCI, the court must report all adjudications or dismissals to BCI regardless of whether they are reportable or not. If a juvenile record is dismissed, BCI must remove that arrest/record from CCH. If the juvenile court does not report the dismissal, the arrest will stay on file. The same applies to adjudications to lesser offenses that are nonreportable.

**Data Submission Process**

There are three ways for courts to submit disposition information to BCI. The preferred method is electronically via File Transfer Protocol (FTP). This automated process involves mapping data from a court system to a standard file layout from BCI and sending it electronically to populate CCH. The specification document can be found here. https://www.ohioattorneygeneral.gov/Files/Forms/Forms-for-BCI-Criminal-Records-and-Background-Check/Forms-for-Court/Electronic-Disposition-Specifications

For guidance in setting up this method, contact the Ohio Attorney General’s Information Technology Section by email at ITSSupport@OhioAttorneyGeneral.gov or by phone at 800-750-7922.

The second way to submit disposition information to BCI is by completing a paper Final Disposition Form (form 2-71). How to fill out a 2-71 form: https://www.ohioattorneygeneral.gov/Files/Publications-Files/Background-Check-Publications/2-71-form-with-field-descriptions.aspx

This form should follow the incident from arrest through disposition, which means the form will originate with the law enforcement agency and then be completed by the court with disposition information and mailed to BCI Attn: Identification at P.O. Box 365 London, OH 43140. If a court receives a 2-71 form from law enforcement without an ITN, the disposition can be submitted. If it does not attach because the arrest is not on file, the BCI Quality Assurance Unit or the prospective court can follow up with the arresting agency to obtain fingerprints for that arrest. Once the fingerprints are submitted to BCI, the disposition can be resubmitted.

The third way to submit disposition information to BCI is electronically via the Ohio Courts Network (OCN), a program managed by the Supreme Court. If the court already submits information to OCN, it is not automatically forwarded to BCI. If an agency wants to use the OCN method to submit data to BCI, the agency needs to specify this when signing up with OCN. Indicating that the information needs to be sent to BCI and not only maintained as a part of the OCN file will ensure the dispositions reach the CCH. To participate in this program, contact the OCN Helpdesk at 614-387-9980 or via email at OCNHelpdesk@sc.ohio.gov
Submitting dispositions via FTP

How do I start submitting via FTP?

Contact the Ohio Attorney General’s Information Technology Section by email at ITSSupport@OhioAttorneyGeneral.gov or by phone at 800-750-7922.

How does it work?

Electronic submissions are linked to an arrest in CCH by various fields. The preferred field that successfully attaches a disposition to an arrest is the Incident Tracking Number (ITN). This number is automatically generated by Livescan machine every time a Law Enforcement agency fingerprints someone and transmits the information to BCI. If manually taking prints and mailing the fingerprint cards to BCI, the ITN number is still the preferred method. BCI provides ten print fingerprint cards with preprinted ITN numbers to agencies free of charge. There are various other fields that can be searched in CCH if the ITN number is not present as listed below (a diagram of the workflow is also included):

The BCI, UCN (FBI), Incident tracking number (ITN), or the Social security number (SOC) is used to locate offenders in the CCH database. The UCN (FBI), ITN, and SOC are not always unique and may result in a list of possible offenders. The ITN is the preferred key used to locate offenders. If the ITN is missing or occurs multiple times in the CCH database, the Date of arrest or date fingerprinted (DOA) is required to verify the arrest. The arrests under each possible offender are checked against the DOA on the disposition record. If the disposition DOA does not match the arrest DOA, the disposition will not be stored.

The Judicial tracking number (JUD-TRN) is required to locate a specific disposition pertaining to the arrest. Each disposition pertaining to an arrest must have a unique JUD-TRN. The JUD-TRN will prevent duplicate disposition records from being stored. The JUD-TRN will make it possible for courts to submit modify or delete disposition records using record types MR3B and XR3B respectively. If a disposition without a JUD-TRN already exists for an arrest, then additional dispositions cannot be added. Dispositions entered manually by a BCII operator will not have JUD-TRNs.
CCH Database Structure

The arrows represent (one to many) relationships.

1) Locate the Subject
The BCI, FBI, ITN, or SOC is used to locate the offender in the CCH database. At least one of these numbers must be known to process the record.

2) Locate/Verify Cycle
The ITN and/or DOA are used to verify the correct cycle. In some cases, there may be multiple cycles with the same DOA but the ITNs will be different.

3) The JUD-TRN is used to distinguish one Judicial record from another. The JUD-TRN will be used to avoid storing duplicate judicial records and to locate judicial records that need to be modified or deleted.

4) Supplemental Information
Courts must continue to report supplemental information via US MAIL. Currently, BCI&I does not have an automated process to handle this information.

Detailed Description of Disposition Data Elements

CDN

**Detailed chart on page 26**

**Name:** Court Disposition Number

This code is used to report the outcome of a sentence

**Field Size:** 3

**Condition:** Required field for record types ER3B and MR3B

If valid, the disposition will be stored

If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report

The court is responsible for fixing this error and resubmitting the disposition

CFN

**Name:** Court Fine

Expressed in whole dollar amounts

**Field Size:** 6

**Condition:** Blank if no fine

If valid data will be stored

If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report

**Acceptable Formats or values:**

```
<table>
<thead>
<tr>
<th>Format</th>
<th>Example</th>
</tr>
</thead>
<tbody>
<tr>
<td>nzzzzz</td>
<td>Ex: 150000 WHERE: n = 1 thru 9</td>
</tr>
<tr>
<td>nzzzz</td>
<td>Ex: 25000  z = 0 thru 9</td>
</tr>
<tr>
<td>nzzz</td>
<td>Ex: 5000</td>
</tr>
<tr>
<td>nzz</td>
<td>Ex: 250</td>
</tr>
<tr>
<td>nz</td>
<td>Ex: 50</td>
</tr>
<tr>
<td>n</td>
<td>Ex: 5</td>
</tr>
</tbody>
</table>
```

The court is responsible for fixing this error and resubmitting the disposition

CMT

**Name:** Confinement

**Field Size:** 12

**Condition:** Blank if CDN = 301,302, 303, 305, 306, 307, 308, 309, 313, 318, 319, 320, 322, 323, 324, 325, 336, 350,356 (Non-conviction codes) and 312, 314 and 321 (Conviction codes)

**Required** for ER3B and MR3B if CDN = 310, 311, 332, 333 and 390 (Conviction codes) **and** CPR, CFN, CPN and CPL are missing

**Required** if a suspended sentence (CSS) entry has been entered

Stored if valid

If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report

The court is responsible for fixing this error and resubmitting the disposition

**Acceptable formats or values:**

- Minimum to Maximum times or Maximum time only  Ex: 5Y-25Y
- Hyphen is used to separate minimum and maximum times  Ex: 6M-1Y
- Minimum time must be on the left side of the hyphen
- Left should be justified with remainder of field containing spaces
- Embedded spaces not allowed Ex: 12 Y – 15 Y
- Confinement is total sentence time
- Show years before months and months before days Ex: 1Y6M30D
- **Y** = Years
- **M** = Months
- **D** = Days
- **LIFE** = Life sentence
- **1Y-AGE** = Sentence where a **juvenile** will either serve 1 year or until he/she reaches the age of 21

COL

**Name:** Court Offense Literal  
**Field Size:** 100  
**Condition:** Required for ER3B & MR3B  
Stored if valid  
If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report  
The court is responsible for fixing this error and resubmitting the disposition  
**Acceptable Formats or values:** FREE TEXT  
The Ohio Revised Code translation with additional information describing the type and degree of the charge. For example, if the charge is a 4th degree felony, F4 should be included in the COL – Drug Trafficking F4  
It will differ from the ORC translation if the Revised Code pertains to Conspiracy, Attempted or Complicity. For example, if Attempted Murder, the ORC will be 2923.02 (Attempted) and the COL will contain Attempted Murder

CON

**Name:** Conviction type – Felony or Misdemeanor indicator  
**Field Size:** 3  
**Condition:** Blank if not convicted. CDN = 301, 302, 303, 305, 306, 307, 308, 309, 313, 318, 319, 320, 322, 323, 324, 325, 336, 350, 356 (Non-conviction codes) and 314 and 321 (Conviction codes)  
Required for ER3B & MR3B if convicted  
Stored if valid  
If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report  
The court is responsible for fixing this error and resubmitting the disposition  
**Acceptable Formats or values:** F1, F2, F3, F4, F5, FEL (where level is unknown), M1, M2, M3, M4, MIS (where level is unknown) or BLANK if not convicted

CPL

**Name:** Court Provisions Literal  
The CPL is used to describe court provisions in more detail or provisions that could not be identified using another field (CMT, CPR, CFN)  
**Field Size:** 150  
**Condition:** Required for ER3B & MR3B if CDN = 310, 311, 332, 333 or 390 (Conviction codes) and CPR, CFN, CPN and CMT are missing  
Stored if valid  
If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report  
The court is responsible for fixing this error and resubmitting the disposition  
**Acceptable Formats or values:** FREE TEXT
Examples of information commonly found in the CPL field

- Credit 10D for time served
- 30D house arrest
- $25 costs, $150 fine suspended (when there is an amount in the CFN field), $300 restitution (if amount unknown, use CPN code for restitution)
- 1Y license suspension
- Anger Management program
- 3D Driver Intervention Program

Whenever possible, information in the CPL should not be abbreviated (except for accepted formats established for time (days, months, years). If due to space limitations abbreviations are necessary, they should be common abbreviations that the public in general would understand. Rap Sheets are regularly mailed to non-criminal justice agencies or individuals, therefore, using abbreviations that only Law Enforcement could understand would lead to numerous phone calls from the public. If abbreviations must be used, please refer to the following examples:

CPN
Detailed charge on page 34
Name: Court Provisions Numeric – up to 3 per record
Field Size: 3
Condition: Required for ER3B and MR3B if CDN = 310, 311, 312, 332, 333 and 390 (Conviction Codes) and CPR, CFN, CPL, and CMT are missing
Stored if valid
If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report
The court is responsible for fixing this error and resubmitting the disposition
Acceptable formats or values: must be a valid code from the CPN table

Note: CPN codes have been assigned to the most common provisions in order to speed up data entry and save space in the CCH database. However, the data entry operator may choose to ignore this field and describe all provisions in the CPL field.

CPR
Name: Court Probation
Field Size: 12
Required for ER3B and MR3B if CDN = 310, 311, 312, 332, 333 and 390 (Conviction Codes) and CPR, CFN, CPL, and CMT are missing
Stored if valid
If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report
The court is responsible for fixing this error and resubmitting the disposition
Acceptable formats or values:
- Minimum to Maximum times or Maximum time only Ex: 5Y-25Y
- Hyphen is used to separate minimum and maximum times Ex: 6M-1Y
- Minimum time must be on the left side of the hyphen
- Left should be justified with remainder of field containing spaces
- Embedded spaces not allowed Ex: 12 Y – 15 Y
- Confinement is total sentence time
- Show years before months and months before days Ex: 1Y6M30D
- Y = Years
- M = Months
- D = Days
- LIFE = Life sentence
- 1Y-AGE = Sentence where a juvenile will either serve 1 year or until he/she reaches the age of 21
## CSS

**Name:** Court Suspended Sentence  
**Field Size:** 12  
**Condition:** Blank if CDN = 301, 302, 303, 305, 306, 307, 308, 309, 313, 319, 320, 322, 323, 324, 325, 336, 350, 356 (Non-conviction codes) and 314 and 321 (Conviction codes)  
Stored if valid  
If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report  
The court is responsible for fixing this error and resubmitting the disposition  
**Acceptable formats or values:**  
- Minimum to Maximum times or Maximum time only Ex: 5Y-25Y  
- Hyphen is used to separate minimum and maximum times Ex: 6M-1Y  
- Minimum time must be on the left side of the hyphen

</table>
DATE-SUB

Name: Date Submitted  
Field Size: 8  
Condition: Required  
Purpose: Determines the order in which disposition records are processed  
If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report  
The court is responsible for fixing this error and resubmitting the disposition  
Acceptable Formats or values:  
MMDDCCYY  
Must be a valid date  
Must be equal to or later than the submitted Date of arrest  
Must be equal or earlier than system date

DLN

Name: Driving license number  
Field size: 12  
Condition: optional for ER3B and MR3B  
Acceptable Formats or values:  
Must be a valid driver’s license number

DLS

Name: Driving license state  
Field size: 2  
Condition: optional for ER3B and MR3B  
Acceptable Formats or values:  
Must be a valid 2-character abbreviation for a state

DOA

Name: Date of Arrest (DATE FINGERPRINTED)  
Used to locate/verify arrest cycle in CCH  
Field Size: 8  
Condition: optional if ITN is provided  
Required (along with UCN, BCI or SOC) if ITN is missing  
Fatal error if ITN is missing
The court is responsible for fixing this error and resubmitting the disposition

Acceptable Formats or values:

DOB

Name: Date of birth
Field size: 8
Condition: optional for ER3B and MR3B
Acceptable Formats or values:

Employee-ID

Used to trace the information back to the employee who originally entered or modified it
Name: Employee identifier
Field size: 4
Condition: required for ER3B and MR3B
If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report
The court is responsible for fixing this error and resubmitting the disposition
Acceptable Formats or values:

FN

Used to verify offender in CCH
Name: First Name
Field Size: 30
Condition: required for ER3B and MR3B
If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report
The court is responsible for fixing this error and resubmitting the disposition
Acceptable Formats or values:

Must be at least 3 characters in length
May contain letters and numbers only
May not contain embedded spaces
May contain letters, hyphens, and spaces only

**ITN**

Used to locate and or verify offender in CCH

**Name:** Incident tracking number – preprinted number on arrest card

**Field Size:** 8

**Condition:** Optional if date of arrest is given along with UCN or BCI or SOC
Required if UCN, DOA, BCI and SOC is missing
Fatal error if UCN, BCI or SOC and DOA are missing or invalid
The court is responsible for fixing this error and resubmitting the disposition

**Edits applied:**
Must be 6, 7 or 8 characters in length
Must end with a letter
Must contain at least 1 letter
May not contain more than 2 letters
All ITNs which end with 2 letters must contain 6 numbers – nnnnnnXX
All numbers in ITNS are significant numbers including leading zeros
Some ITNS contain leading zeros
DO NOT suppress these leading zeros if they are part of the number
DO NOT add leading zeros if they are not part of the number
**Ex:** If a card transaction has 8 characters and a Livescan transaction had 7, do not add a leading 0 to the ITN for Livescan transactions

**JUD-ORI**

**Name:** Judicial originating identifier

**Field Size:** 9

**Condition:** Required
If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report
The court is responsible for fixing this error and resubmitting the disposition

**Acceptable Formats or values:**
OH?????nG (most juvenile courts end in G)
OH?????nJ (other courts usually end with J)

? = 0 thru 9
n = 1, 3, 5, or 7 (the numbers reflect the county it originates from) **Ex:** Franklin county’s number is 25, the common pleas court ORI is OH025353J
must end with G or J
LN

Used to verify offender in CCH

**Name:** Last Name

**Field Size:** 30

**Condition:** required for ER3B and MR3B

If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report. The court is responsible for fixing this error and resubmitting the disposition.

**Acceptable Formats or values:**
- Must be at least 2 characters in length
- May contain letters, hyphens and spaces only

MKE

Indicates record type

**Name:** Message Key

**Field Size:** 4

**Condition:** Required

If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report. The court is responsible for fixing this error and resubmitting the disposition.

**Acceptable Formats or values:**
- ER3B – Enter judicial record
- MR3B – Modify judicial record

ORC

Sometimes referred to as a CIT or Statute Citation

**Name:** Ohio Revised Code

**Field Size:** 20

**Condition:** required for ER3B and MR3B

If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report. The court is responsible for fixing this error and resubmitting the disposition.

**Edits applied:**
- Must be at least 3 characters in length
- Must contain periods (example: 2925.11 or for local codes 959.16)
- May not exceed 20 characters in length
- May not contain embedded spaces
- May not contain the letter F or M (if subsections are included – Ex: 2925.11A1C1A)
- If the letter F is in a subsection, the court can either submit the ORC without the F, or submit these manually
Acceptable Formats or values:
NZZZZZZZZ
N = 1 thru 9
Z = 0 thru 9

To report Conspiracy to commit murder:
Use the ORC (2923.01) for Conspiracy; place the description Conspiracy to commit murder in the COL field

To report Attempted Murder:
Use the ORC (2923.02) for attempted; place the description Attempted Murder in the COL field

To report Complicity to commit murder:
Use the ORC (2923.03) for Complicity; place the description Complicity to Commit Murder in the COL field

SOC

Used to locate offender in CCH
Name: Social Security Number
Field Size: 9
Condition: Optional if ITN is given
Required (along with DOA) if UCN, ITN and BCI are missing
Fatal error if BCI, ITN or UCN and the DOA are missing
The court is responsible for fixing this error and resubmitting the disposition

Acceptable Formats or values:
NZZZZZZZZ
N = 0 thru 9
Z = 0 thru 9

TRN

Name: Tracking number
Assigned to the disposition by the contributor (submitting court)
Field Size: 16
Condition: required for ER3B and MR3B
If invalid, a fatal error will occur, the record will be rejected and will appear on the Summary report
The court is responsible for fixing this error and resubmitting the disposition

Acceptable Formats or values:
Free Text, usually contains the case number followed by a 2-digit number. The JUD-TRN is used to
distinguish one disposition from another. The JUD-TRN will be used to avoid storing duplicate Judicial
records and to locate Judicial records which need to be modified or deleted. The TRN is required and
cannot be blank or null.
Recommended format: Case number hyphen 2-digit number
**UCN**

**Name:** Universal Control Number

Number assigned to the offender by the FBI. Used to locate an or verify offender in CCH

**Field Size:** 9

**Condition:** Optional if ITN is given
Required (along with DOA) if BCI, ITN and SOC are missing
Fatal error if BCI, ITN or SOC and the DOA are missing
The court is responsible for fixing this error and resubmitting the disposition

**Edits applied:**
Must be at least 3 characters in length
May contain letters and numbers only
May not contain embedded spaces
May not consist of all zeros
WHAT SHOULD I SUBMIT?

- All outcomes related to mental incompetency; NGRI (Not Guilty Reason Insanity), cases pending mental incompetency, found insane, dismissed reason insanity, etc.
- Cases that are unofficially handled. The arresting agency can also submit a request asking BCI to remove the arrest from CCH since an expungement will not be available from the court since there wasn’t a case. **These should be reported manually.**
- Cases in which the prosecutor declined to file charges and that did not get forwarded to the court. **These should be reported manually.**
- Arrests in which the arresting agency released the person without charging them. The court can submit the information if available to them, or the submitting agency can request that BCI remove the arrest from CCH. **These should be reported manually.**
- **NOTE** – Courts must submit all outcomes of a case regardless of whether the charge is reportable or not. The list of reportable offenses is for arresting agencies.

- **Adjudications** (CDN – court disposition numeric codes with computer translation and definition)

  The following fields are always required:

  CDN, Date-Sub, Employee-ID, Jud-ORI, First name, Last name, Jud-ORI, MKP, ORC, TRN

  *If sentence fields are not filled out a CPN code is required. An adjudication entry will be rejected if it is submitted without these fields.*

  Ex: 333 (Adjudicated delinquent) 180D, with 150D suspended, 3Y probation, $500 fine, CPN codes can also be entered

  333 (Adjudicated delinquent) no sentence information; requires a CPN code
## Juvenile CDN adjudication codes

The court finds by a preponderance of the evidence that, because of the defendant's present mental condition, the defendant is incapable of understanding the nature and objective of the proceedings against the defendant or of assisting in the defendant's defense (see R.C 2945.37(G)) and the court finds that, even if the defendant is provided with a course of treatment, there is not a substantial probability that the defendant will become competent to stand trial within one year (see R.C 2945.38(B)(2)) or the court does not find, by clear and convincing evidence, that the defendant committed the offense with which the defendant is charged and the defendant is a mentally ill person subject to court order or a person with an intellectual disability subject to institutionalization by court order (see R.C 2945.39(C))
<table>
<thead>
<tr>
<th>305</th>
<th>Dismissed</th>
<th>Any misdemeanor or felony offense that has been dismissed in a final or complete manner (with prejudice) by any court that does not fit within the definition of code 319 or 325.</th>
</tr>
</thead>
<tbody>
<tr>
<td>306</td>
<td>Charge Dismissed</td>
<td>The defendant proves, by a preponderance of the evidence, that at the time of the commission of the offense, the defendant did not know, as a result of a severe mental disease or defect, the wrongfulness of a defendant’s acts (See R.C 2901.01(A)(14) and there is not clear and convincing evidence that the defendant is a mentally ill person subject to court order or a person with an intellectual disability subject to institutionalization by court order. See R.C 3945.40(E))</td>
</tr>
<tr>
<td>307</td>
<td>Charge dismissed</td>
<td>The court finds by a preponderance of the evidence that, because of the defendant's present mental condition, the defendant is incapable of understanding the nature and objective of the proceedings against the defendant</td>
</tr>
<tr>
<td></td>
<td>Mental Incompetence</td>
<td></td>
</tr>
</tbody>
</table>
of assisting in the defendant's defense (see R.C 2945.37(G) and the court finds that, even if the defendant is provided with a course of treatment, there is not a substantial probability that the defendant will become competent to stand trial within one year (see R.C 2945.38(B)(2) or the court does not find, by clear and convincing evidence, that the defendant committed the offense with which the defendant is charged and the defendant is a mentally ill person subject to court order or a person with an intellectual disability subject to institutionalization by court order (see R.C 2945.39(C)

| 308 | Charge Pending Insanity | Defendant has entered a plea of not guilty by reason of insanity. See R.C. 2943.03 |
| 309 | Pending Mental Incompetency | The court finds by a preponderance of the evidence that, because of the defendant's present mental condition, the defendant is incapable of understanding the nature and objective of the proceedings |
against the defendant or of assisting in the defendant's offense (see R.C 2945.37(G)) and that there is a substantial probability that the defendant will become competent to stand trial within one year if the defendant is provided with a course of treatment. See R.C 2945.38(B)(1)

| 313 | Dismissed Civil Action | Criminal court dismisses the charge but leaves the case open for civil litigation |
| 318 | Adjudication Withheld | Decision by a judge to put an eligible person on probation without an adjudication of guilt. If the person successfully completes the terms of probation and has no subsequent offenses, no further action will be taken on the case and the offense for which adjudication was withheld is typically not considered a prior conviction for purposes of habitual offender sentencing. |
| 319 (NEW) | Bound over to Common Pleas Court | When a juvenile is treated as an adult and bound over to the Common Pleas Court for adjudication |
| 320 | Mistrial | A mistrial is declared when it is determined that the trial of action cannot stand in law due to want of jurisdiction, wrongful drawing of jurors, disregard of other fundamental requisites, or a hung jury. |
| 322 | Found Insane | The defendant proves, by a preponderance of the evidence, that at the time of the commission of the offense, the defendant did not know, as a result of a severe mental disease or defect, the wrongfulness of defendant's acts (see R.C 2901.01(A)(14) and there is clear and convincing evidence that the person is a mentally ill person subject to court order. See R.C 2945.40(F). |
| 323 | Found Mentally Incompetent | The court finds by a preponderance of the evidence that, because of the defendant's present mental condition, the defendant is incapable of understanding the nature and objective of the proceedings against the defendant or of assisting in the defendant's defense. See R.C 2945.38. |
**Nolle Prosequi**

An entry on the record of legal action denoting that the prosecutor or plaintiff will proceed no further in an action or suit either as a whole or as to some count or as to one or more of several defendants.

---

**Court Provision Numeric (CPN) codes**

3-digit numeric codes describing common sentence provisions in more detail or provisions that could not be identified using another field (CMT, CPR or CFN)

<table>
<thead>
<tr>
<th>CPN Code</th>
<th>Translation</th>

</table>
should show a conviction code and the sentence. Count two (and any other applicable charges) should show a conviction or dismissal code with this code in the CPN field

| 373 | Successful completion of ILC | The charge is dismissed as a result of subject having completed an Intervention in Lieu of Conviction program |
Basic Summary and Detailed Reports

When a court file is downloaded into CCH, the court receives a basic report that lists what happened to all the files. This report also lists any fatal errors that might have occurred while processing the file.

**BASIC SUMMARY REPORT**

---

| RECORDS PROCESSED | 27 |
| RECORDS LOADED INTO CCH | 24 |
| RECORDS CONTAINING ERRORS | 0 |
| NO CORRESPONDING ARREST ON FILE | 3 |
| A DISPOSITION WITHOUT A TRN IS ALREADY ON FILE | 0 |
| DISPOSITION ALREADY ON FILE | 0 |
| RECORDS CONTAINED SUPPLEMENT DATA AND WERE IGNORED | 0 |

Any fatal errors will be listed separately underneath the top portion. The error that occurred will be listed beside the field that contains the error. In this case the court disposition date is before the date of arrest which is against specification.
Fatal Errors

Multi-cycle with same ITN

There are 2 or more arrests on file with the same ITN. The program cannot determine which arrest corresponds to the disposition.

Q: How do I resolve this?

A: No action is necessary, BCI manually enters the information

Multi-cycle with same DOA

There are 2 or more arrests on file that occurred on the same day. The program cannot determine which arrest corresponds to the disposition.

Q: How do I resolve this?

A: No action is necessary, BCI manually enters the information

Required field invalid

This message is displayed beside the field that has been entered incorrectly. This could happen due to a variety of reasons. Usually it is a format issue; for example, the date of birth has to be submitted YYYMMDD

Q: How do I resolve this?

A: Review the error listed on the report and refer to specifications indicating in what format that field should be submitted. Correct the error, and resend electronically with the next file.

Required field missing

This message is displayed beside the field that has been left blank. Within the specifications there are several combinations by which the search for a matching offender is processed. If one of those fields is missing the program will error because it can’t complete the search without it.

Q: How do I resolve this?

A: Identify which field was submitted without information. Refer to the specifications to verify what fields are mandatory for successful attachment. Add the missing field and resend electronically with the next file. In some cases a different combination of fields might have to be submitted if you do not have the information on the missing field.
Disposition already on file

Either a disposition has already been sent electronically and accepted, or BCI staff has entered it manually.

Q: How do I resolve this?

A: No action is necessary

Matching TRN (tracking number) not found

The disposition program could not find a disposition in CCH that had the same TRN as the disposition record submitted. In order to delete/modify a disposition in CCH, the TRN on the CCH must match the TRN on the submission.

Q: How do I resolve this?

A: Resend the disposition as a new entry, not as a modification.

Detailed Reports

These are provided upon request of the court.
The detailed report lists every transaction that was submitted and the status of each.

Detailed Report Errors:
Note – the list below does not include all error messages

Offender not on file

Unable to locate an offender with CCH. This means that BCI did not receive a fingerprint card for this individual. The agency needs to be contacted to obtain a fingerprint card for the offender.

Q: How do I resolve this?

A: The Quality Assurance Unit receives detailed reports and contacts the arresting agency if the ITN number is listed. If there is no ITN number, the court should contact the arresting agency if that information is available. Without an ITN number QA does not know where the arrest came from and would not be able to locate that information. ***Please note that this applies to dispositions sent electronically via FTP. If sending through OCN the number of these will increase since non reportable information is included in this portion of the report.*****

Cycle not on file/No corresponding arrest record on file

An offender has been located, but this incident or date of arrest is not on file. The agency needs contacted to supply a fingerprint card for that arrest.

Q: How do I resolve this?

A: The Quality Assurance Unit receives detailed reports and contacts the arresting agency if the ITN number is listed. If there is no ITN number, the court should contact the arresting agency if that information is available. Without an ITN number QA does not know where the arrest came from and would not be able to locate that information. ***Please note that this applies to dispositions sent electronically via FTP. If sending through OCN the number of these will increase since non reportable information is included in this portion of the report.*****

Disp (disposition) exists

There is already a disposition on file for that arrest.

Q: How do I resolve this?

A: No action is necessary

Record accepted

Disposition(s) added to CCH.

Disposition found without a TRN
A disposition has been added manually by BCI staff previous to the electronic submission

Q: How do I resolve this?
A: No action is necessary

**Records contained supplement data and were ignored**

The disposition was ignored because the system interpreted the record to be supplemental data which cannot be processed electronically at this time.

Q: How do I resolve this?
A: Mail the supplemental information to BCI for manual processing.

**CCH Query Error**

The data didn’t load properly into CCH.

Q: How do I resolve this?
A: No action is necessary

**Invalid Size**

That data is not formatted per specifications

Q: How do I resolve this?
A: The court should resubmit the data
What should not be transmitted electronically?

1. Vacate orders/Sentence modifications or corrections – If you do not have the capability to electronically submit modifications, these must be faxed, emailed or mailed to BCI. These can be submitted on court letterhead, on a journal entry or a correction form provided by BCI https://www.ohioattorneygeneral.gov/Files/Forms/Forms-for-BCI-Criminal-Records-and-Background-Chec/Forms-for-Court/BCI-CORRECTION-FORM-COURT-DISPOS and must contain the person’s demographics; the initial sentencing information and the case number.

2. Probation Violations without an ITN number – This is considered supplemental information and cannot be submitted electronically. If submitted electronically, it would reject because there would already be a disposition on file containing the initial sentence. If you know the ITN number for the initial arrest include it with the information sent to BCI. The Probation Violation must stem from a reportable adjudication.

If an ITN number is provided by law enforcement for the Probation Violation charge, the disposition for the Probation Violation can be submitted electronically under that ITN number.

3. Duplicate ITN’s – some counties will fingerprint a person for the same offense when they are transferred to the jail, when they are bonded out, when they are indicted, etc. This causes duplicate arrests on a person’s record with different dates of arrest that are all linked to the same incident. Report the disposition electronically on any of the ITN numbers. All other “duplicate/same incident” ITN numbers should be reported manually. Below is an example of how to do this:
4. Cases in which charges were not filed in court. The arresting agency can also submit a request asking BCI to remove the arrest from CCH since an expungement will not be available from the court since there wasn’t a case.

5. Cases in which the prosecutor declined to file charges and that did not get forwarded to the court.

6. Arrests in which the arresting agency released the person without charging them. The court can submit the information if available to them, or the submitting agency can request that BCI remove the arrest from CCH.
