The Ohio Bureau of Criminal Investigation (BCI) can provide visibility and investigative resources to help local law enforcement agencies resolve unsolved homicides. Through the Ohio Attorney General’s website at www.OhioAttorneyGeneral.gov/OhioUnsolvedHomicides, local law enforcement can share details and photos related to unsolved homicides and solicit tips from the public.

BCI defines an unsolved homicide as a homicide or questionable death that remains unsolved after being reported to law enforcement and for which there are no apparent viable leads.

By highlighting cold cases through the Ohio Attorney General’s Office, local law enforcement agencies can:

- Bring widespread visibility to a case
- Increase the likelihood that tips may help bring a perpetrator to justice and victims’ loved ones a sense of closure
- Compare details of cases in their jurisdictions with unsolved homicides elsewhere, helping to identify linked cases
The Ohio Bureau of Criminal Investigation is committed to serving the law enforcement community and protecting Ohio families by providing accurate criminal records, reliable laboratory services, and comprehensive investigative assistance.

Through its Investigations Division, BCI can provide law enforcement agencies and prosecutors with a wide range of investigative support and resources. Special agents conduct cooperative investigations and, in certain cases, serve as lead investigators when requested by local law enforcement.

To request that an unsolved homicide be included in BCI’s statewide database and featured on the Attorney General’s website, call BCI at 855-BCI-OHIO (855-224-6446) or e-mail OhioUnsolvedHomicides@OhioAttorneyGeneral.gov and reference Ohio Unsolved Homicides.
