On May 30, 2022 at approximately 0410 hours, Ptl. Westfield and I cleared the scene of a shooting, located at 15310 Fernway Drive (reference incident number 22-10109588) and drove to the Maple Heights Service Department to get gas for my marked Maple Heights Police cruiser # 4401, located at 5501 Dunham Road, just North of Fernway Drive. At approximately 0414 hours, while at the Service Department, Ptl. Westfield asked me if I heard a gunshot and I told him "no". I asked Ptl. Westfield how many gunshots he heard and which direction he heard it from and he replied "Fernway". Ptl. Westfield updated other Maple Heights Units; reference incident number 22-101 09615. I began driving South on Dunham Road from the Service Department and I observed a silver vehicle at a distance ahead travelling at a speed that I approximately to be 45 mph. I initiated a traffic stop on the vehicle, and discovered the vehicle to be a silver Chevrolet Cobalt, bearing OH registration # HYK3015; that vehicle was found not to be involved. I informed the responding units to check the area of Granger Road, Libby Road and Broadway Avenue. Ptl. Mijangos asked for the suspect's vehicle description and I advised him the vehicle was believed to be a silver Ford Focus, according to witness testimony. Ptl. Mijangos advised he observed a Ford Fusion travelling East on Granger Road at a high rate of speed. Ptl. Mijangos advised the vehicle was not stopping for his emergency signals and a pursuit ensued.

Ptl. Mijangos provided updated directions of travel, street names and speeds as I attempted to catch up to him and his trainee, Ptl. Duncan. Ptl. Westfield followed closely behind me. Ptl. Mijangos advised the vehicle crashed on Buckeye Road and suspects were running on foot. I asked dispatch for an exact location of the cruiser that Ptl. Mijangos and Ptl. Duncan were driving. Dispatch was able to locate them by the GPS equipped in the marked Maple Heights Police Cruisers. Dispatch provided the location of Buckeye Road near McCurdy Street. I arrived to the last known location of Ptl. Mijangos and Ptl. Duncan. Upon arrival, I observed a person standing on the sidewalk on McCurdy Street, as I exited my vehicle I could hear Ptl. Duncan's voice coming from the direction of McCurdy Street.

Ptl. Westfield and I ran to Ptl. Duncan's location, where I observed a medium complexioned male with dread locs lying in a grassy area behind the chain linked fence of 2747 McCurdy Street. The fence had a rusted chain, looped around the closing of the fence, which kept the gate closed. The male was lying on his stomach and was slightly moving. We gave the male several commands to show Officers his hands, however he was not responding to our commands. Ptl. Duncan informed me that he did observe a firearm in the male's possession. A short time later, the male was no longer moving. Ptl. Westfield jumped the fence and Ptl. Duncan followed behind Ptl. Westfield and jumped the fence as well while I provided lethal coverage. At this time Ptl. Westfield and Ptl. Duncan placed the male in handcuffs. Cleveland Police arrived on scene and I noticed Ptl. Mijangos was not in the area. I made several attempts to located Ptl. Mijangos without success. Ptl. Mijangos advised via radio that he had one male in custody and would be walking back to the scene with the male. I met Ptl. Mijangos near the intersection of Buckeye Road near E. 93rd Street where he turned over a male subject to me, who I later learned to be Decarlo Fields. Decarlo was searched by Ptl. Westfield and placed in the rear of marked Maple Heights Police cruiser number 4423.

I informed dispatch of the VIN # 1FADP3F20GL280735 located on the driver door of the Ford Focus, which was left open. Dispatch informed that the vehicle was entered into LEADS as stolen NIC/V263960163; reference Cleveland PD incident number 2022-00137172.

While on scene, I was informed that a third suspect, later identified as Omarion Fields, was located at a bus stop. Cleveland PD transported that male to the scene where was positively identified by Ptl. Mijangos as one
