Officer-Involved Critical Incident- 3171 Legion Ln, Columbus

Investigative Activity: Video Review

Activity Date: 5/18/2021

Activity Location: BCI

Authoring Agent: SA Matt Collins, #151

Narrative:

On Wednesday, April 28, 2021, Ohio Bureau of Criminal Investigation (BCI) Special Agent (SA) Matt Collins (SA Collins), during an in-person meeting, received video footage from Angela Moore via email. SA Collins was aware the videos contained footage from the ADT and Ring Doorbell surveillance cameras located at 3171 Legion Ln.. During the April 28th meeting, SA Collins created a video showing the time-stamp for each video clip (as they were not found within the video). The following report will be in respect to the review of both the ADT surveillance camera (Garage) and the Ring Doorbell camera (front door).

SA Collins utilized *iINPUT ACE* (iA) to evaluate and work with the video files to aid in the review. SA Collins brought the video files into iA; By doing so, the program identifies the metadata included within the video. It was learned, both the ADT and Ring video from 3171 Legion Ln. was recorded and played at fifteen frames per second (15 fps).

SA Collins created marked images during the review. SA Collins reviewed the video recordings and learned there were a total of fifteen (15) video files related to the ADT or garage camera. There is no sound in those videos. He also learned there were thirteen (13) video files related to the Ring Doorbell camera and there is sound in those videos. The files, since they were sent by email, were generically named ("clipsvideo.mov"). So SA Collins, reviewing the video he created, was able to title the clips based on the time displayed when Moore showed her phone. Those times/titles will be used to identify the video file. SA Collins reviewed all the files and found there was no video which depicted the incident involving CPD, Ma'Khia Bryant or others. However, he noted the information believed to aid the reader in understanding the time-line of what was taking place prior to and immediately following the incident involving CPD. The ADT garage camera view is from the garage, overlooking the driveway of 3171 Legion Ln. and facing East/Northeast. The Ring Doorbell camera is at the front door and faces East. SA Collins further noted the following:

Officer-Involved Critical Incident- 3171 Legion Ln, Columbus

The next video was of a male CPD officer exiting the front door at 17:09 hours. It should be noted, there were preservation letters and search warrants issued to ADT and Ring respectively in order to obtain the video. This report was created by reviewing the video from 3171 that was readily available (obtained from Angela Moore). When the video is obtained from the above respective entities via search warrant, SA Collins will generate an addendum report to include any additional information learned in that subsequent review.

The thumb drive containing the video footage was submitted to the physical BCI case file as item #2 for reference only.
