Officer Involved Critical Incident - 1309 Yellowstone Road,
Cleveland Heights, Ohio 44121

Investigative Activity: Amazon/Ring Records Received and Reviewed
Involves: Amazon/Ring (O)
Activity Date: 11/29/2024
Activity Location: BCI, 4055 Highlander Parkway Richfield, OH 44286
Authoring Agent: SA Nicholas Valente #139

Narrative:

On September 16, 2024, Ohio Bureau of Criminal Investigation (BCI) Special Agent (SA) Nick Valente drafted, obtained, and executed a warrant to obtain records from Amazon/Ring for information and video files captured from two Ring doorbell security cameras present on the subject's home at the time of the officer-involved shooting. One of these cameras was placed on the front of the home near the front door. The second camera was placed on a wall in the home's three seasons room near the door to the room.

On November 29, 2024, SA Valente received responsive records from Amazon/Ring. SA Valente downloaded and saved the records. The responsive records consisted of a single spreadsheet and an accompanying email that served as a certificate of authenticity. The spreadsheet and accompanying email were attached to this report for further review.

On December 2, 2024, and December 19, 2024, SA Valente contacted Ring through their proprietary law enforcement portal asking for confirmation that no relevant/responsive videos exist. On December 19, 2024, Ring responded to the second request:

Greetings,
Thank you for your inquiry. Ring can confirm that all responsive data for the date and time frame was produced. There were no videos located.
Regards,
Ring LER Team
