FEDERAL

FIELD & TARGET

MULTI-PURPOSE LOAD

Field & Target shotshells are primarily designed for recreational target shooting, including trap, skeet and sporting clays. They are also a good choice for light upland bird hunting for species including doves, quail and grouse. Hard shot and a plastic shot cup eliminate flyers and improve patterns. For registered target shooting tournaments, we recommend Federal Premium® Gold Medal Grand® target loads.

- Hard shot produces dense patterns
- Quality plastic hull
- Reliable primer ensures consistent performance
- Plated head for reliable function
- Wad's plastic shot cup prevents abrasion of shot in bore, eliminating erratic pellets and improving patterns
- Clean-burning propellant
