Investigative Activity: Recovered Cell Phone Analysis Review
Activity Date: July 5, 2022
Activity Location: BCI - Richfield
Authoring Agent: SA Matthew Armstrong

Narrative:

On Tuesday, July 5, 2022, Ohio Bureau of Criminal Investigation Special Agent (SA) Matt Armstrong (Armstrong) began reviewing the data extracted from a cell phone recovered from Jayland Walker's vehicle while processing the scene of the June 28, 2022, officer-involved shooting in Akron, Ohio. The data was extracted by BCI Computer Forensic Specialist Natasha Branam pursuant to a search warrant obtained by SA Cory Momchilov through the Summit County Common Pleas Court.

The device was identified as a black Samsung Galaxy cellular phone (Matrix Evidence Item #114) and was believed to belong to Jayland Walker. A copy of the extracted data was stored on a thumb drive in the BCI SIU case file as Reference Item C.

The data/files were organized in 4 folders: Attachment A, Attachment B, Attachment C, and Attachment D. Attachment D contained the Cellebrite Reader Report which was provided to assist investigators in reviewing the data.

A review of the data revealed the following:

The Black Samsung Galaxy cell phone appeared to belong to Jayland Walker. There were numerous images stored on the device which depicted Walker and Jaymeisha Beasley (Jaymeisha). In addition, the phone number associated with the device was 330-945-0365. The service provider for the cellular number was T-Mobile and the account subscriber information associated with that phone number revealed the name on the account was Jayland Walker.

The images below depict an overview of the content extracted from the device.

Messages

A review of text messages and instant messages stored on the device was completed. There were 2155 instant messages and 161 text message threads which contained a total of 6,051 messages. Conversations captured in 18 of the message threads were identified as containing content relevant to this investigation.

Contextual information:

Jaymeisha Beasley passed away on May 28, 2022. Her funeral was June 10, 2022. The message content most relevant to this investigation took place between May 28, 2022 and June 27, 2022, the date of the officer-involved shooting.

None of the message content generated prior to the death of Jaymeisha appeared to contain information relevant to this investigation. Multiple individuals contacted Jayland and checked on him during the days immediately following the death of Jaymeisha. For details regarding those conversations refer to all the messages extracted from the device.

The following message threads were identified as being most relevant because they provide insight to the potential mental state of Walker in the days and weeks that followed Jaymeisha's death. Select messages from the threads have been included in this report. For additional details and the content of all messages in the thread, refer to the message threads attached to this report.

Review of Text Messages:

The messages detailed below share a common theme in that the parties engaging in text conversation with Jayland appear to regularly check on his well-being. The messages below do not include all the messages from the time of Jaymeisha's death as numerous messages were initially sent offering thoughts, prayers and condolences. SA Armstrong primarily included messages sent in the days and weeks following Jaymeisha's funeral on June 10, 2022, as those messages provided more insight into the ongoing mental state of Jayland. During that time multiple individuals expressed concern for his well-being.

In addition, SA Armstrong also specifically noted the following:

- Phone number [REDACTED] was saved under contact name Jaymeisha(My Wife). Based on the content in the messages it appeared to be Jaymeisha Beasley's phone number.
- Jayland text Jaymeisha's phone number after learning of her death on four separate occasions as outlined below:
