Investigative Activity: Personnel File Review
Involves: [REDACTED]
Activity Date: 01/21/2026
Activity Location: 4055 Highlander Parkway, Richfield, OH
Authoring Agent: SA Jesse Bynum #179

Narrative:

On Friday, January 16, 2026, Ohio Bureau of Criminal Investigation (BCI) Special Agent (SA) Allison Fletcher (SA Fletcher) received the personnel file for [REDACTED] from Euclid Police Department (EPD) Detective Sergeant Nick Edington. SA Jesse Bynum (Bynum) reviewed the personnel and training files and noted the following:

SA Bynum reviewed the file titled [REDACTED] Personnel File" and found it to be a 284-page PDF document. [REDACTED] received multiple letters of commendation related to the recovery of firearms during traffic stops. On December 26, 2024, [REDACTED] received a letter of Recognition his involvement during a mental health crisis that ended in the subject being taken into custody without injury.

On August 10, 2024, a form was filled out for a personally owned firearm. [REDACTED] requested and was given approval to carry a personally owned rifle. The rifle was an American Defense UICMOD2 with Serial Number [REDACTED] with a barrel length of 11.5 inches and an Aimpoint T-2 optic and a sound suppressor. On May 22, 2023, a form was filled out for a personally owned firearm. [REDACTED] requested and was given approval to carry a personally owned pistol. The pistol was a Staccato P DPO with Serial Number [REDACTED] 9mm with an Aimpoint P-2 optic.

SA Bynum reviewed the file titled "2026-01-16 [REDACTED] 2025 FSUOF Test [REDACTED]" and found it to be a one-page document with blanks filled in about the fundamental rules of firearms safety, Graham v. Conner, and Use of force. This form listed [REDACTED] as the officer and "Frato" listed as the instructor.

SA Bynum reviewed the file titled "2026-01-16 Certificates Hire - 2024 - [REDACTED]" and found it to be a 67-page PDF of training related documents. Certificates related to use of force including Axon Taser, Pepper Ball, Pepper Spray, his OPOTA academy certificate, a 16-hour course on "Street Survival", an in-service training on Subject Control, stop the bleed, and CPR recertification, past personally owned firearm

COMMENDATION FOR A JOB WELL DONE

(Re: Incident # [REDACTED] on 01-05-26)

You are both to be commended for your proactive police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered during a traffic stop. The driver/suspect was found to have a suspended driver's license and a criminal history that would preclude him from legally possessing a firearm. He was also found to have an outstanding misdemeanor traffic warrant through the Lakewood Police Department.

Thank you both for your continued commitment to exceptional police work!

Respectfully,

You are both to be commended for your proactive police work that ultimately led to the safe seizure of two (2) illicit, loaded handguns. These weapons were recovered during a traffic stop. The stopped vehicle contained four occupants (17-20 years of age). The uncooperative 20 year old driver/suspect was found to have a suspended driver's license and a criminal history that would preclude him from legally possessing a firearm. He was additionally, not of legal age to possess a handgun. Officers also located a ski mask on the driver/suspect.

Thank you both for your continued commitment to exceptional police work!

You are to be commended for your police work that ultimately lead to the safe seizure of a Glock 23 firearm. After observing a traffic violation, you initiated a traffic stop. Both the driver and passenger denied any firearms were in the vehicle, and you observed an open bottle of wine on the front passenger seat. The driver and passenger were removed, as well as a backseat passenger, and a search was conducted. A loaded firearm was seized from under the center bench seat. The driver had several felony convictions precluding him from possessing a firearm. You concluded the traffic stop by issuing the driver his window tint and open container citations and releasing all on scene. Thank you for your continued commitment to exceptional police work!

You are to be commended for your police work that ultimately lead to the safe seizure of a Taurus G3C firearm. After observing a traffic violation, you initiated a traffic stop, but the driver was slow to pull over and stop, and you observed the passenger make furtive movement. Both occupants denied any firearms were in the vehicle. Upon the driver exiting the vehicle, you observed an empty firearm holster in the map pocket and then you conducted a pat down of the driver and a search of the vehicle. You seized a loaded handgun from underneath the front passenger floor board carpet protector. You concluded the traffic stop by giving the driver a verbal warning for his traffic violation, completing a warrant request, and releasing him on scene. (Re: Incident [REDACTED] on 09-25-25)

You are all to be commended for your proactive police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered during a traffic stop. The driver/suspect was found to have a criminal history that would preclude him from legally possessing a firearm. He denied the presence of a firearm in the vehicle when initially asked by police. Police also located and seized ~ a large of amount of various types of suspected illegal street narcotics and \$325 in U.S. cash currency.

Thank you all for your continued commitment to exceptional police work!

(Re: Incident # [REDACTED] on 09-21-25)

You are both to be commended for your proactive police work that ultimately led to the safe seizure of two loaded handguns. These weapons were recovered during a traffic stop. The driver and his passenger both denied the presence of a firearm when asked by police. One of the handguns was found to be entered as stolen property through the Cleveland Police Department. The passenger (in possession of the stolen handgun) was found to have an open felony case through the Cuyahoga County Court of Common Pleas. He was also found to have been adjudicated as a juvenile for the crime of rape, preventing him from legally being able to possess a firearm. Police also observed an open bottle of vodka in the vehicle.

Thank you both for your continued commitment to exceptional police work!

You are all to be commended for your police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered while Officers were checking on a suspicious vehicle/suspicious activity that possibly involved a firearm. Police located the vehicle and it contained four (4) male occupants. One of the males was uncooperative with lawful police commands. Police located open containers of alcohol in the vehicle. One or more of the occupants had been drinking. A suspected "rock of crack cocaine" was also located in the vehicle. Two of the occupants were legally prohibited from possessing a firearm (one due to his criminal history and the other due to him being named in a protection order).

You are all to be commended for your proactive police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered during a traffic stop. The traffic stop was initiated due to the fact that the vehicle was entered as stolen (taken by armed suspects) through the Cleveland Police Department. The driver/suspect (sole occupant) refused to stop for police and a pursuit ensued. He eventually crashed the vehicle and then attempted to flee on foot. He was apprehended. He was wearing black latex gloves when apprehended. The recovered handgun was found to contain an illegal "switch" making the handgun fully automatic. The 26 year old male suspect had recently been released from prison after serving eight years on a previous violent felony. Police also recovered an amount of a white powder which will be sent to the lab for testing.

(Re: Incident # [REDACTED] on 06-10-25)

You are all to be commended for your proactive police work that ultimately led to the safe seizure of two (2) illicit, loaded handguns. These weapons were recovered during a traffic stop. The driver and his front seat passenger both fled from the traffic stop on foot. They were both apprehended. Both were found to have a criminal history that would preclude them both from legally possessing a firearm. Police also located and seized – a large amount of multiple types of illicit narcotics, two digital scales, and \$545 in U.S. cash currency.

Thank you all for your continued commitment to exceptional police work!

You are all to be commended for your police work that ultimately led to the safe seizure of two illicit firearms. During a traffic stop on Euclid Ave., you located a Polymer 80 without any serial number on the slide, barrel, or frame. The handgun had a loaded magazine inserted in the frame. A second handgun, a Glock 20, was located with a loaded magazine also inserted in the frame.

During your investigation, the passenger originally concealed his identity and you ultimately learned he had a weapons offense warrant with the Cuyahoga County Sheriff's Office. Both the driver and passenger are prohibited from possessing firearms based on prior convictions. Both males were safely transported to jail.

(Re: Incident [REDACTED] n 02-19-25)

You are all to be commended for your proactive police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered during a traffic stop. The driver/suspect initially stopped for police. When [REDACTED] approached the stopped vehicle, the driver/suspect was observed manipulating a handgun with his hands. The driver/suspect then accelerated away and led police on a vehicle pursuit. He eventually lost control of the vehicle and then fled from police on foot. Police were able to locate and apprehend him. He had attempted to discard the loaded handgun, which was located and seized by police. This male was found have a criminal history that would preclude him from legally possessing a firearm.

Thank you all for your continued commitment to exceptional police work!

(Re: Incident # [REDACTED] on 07-22-25)

You are all to be commended for your proactive police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered during a traffic stop. The driver/suspect was found to have a criminal history that would preclude him from legally possessing a firearm.

Thank you all for your continued commitment to exceptional police work!

You are all to be commended for your proactive police work that ultimately led to the safe seizure of two (2) illicit, loaded handguns. These weapons were recovered during a traffic stop. The vehicle was occupied by three parties, all under 21 years of age (18, 18 & 19 years old). None were old enough to legally possess a handgun and/or the marijuana which was observed in the vehicle. All denied the existence of any firearms when asked by police. Both handguns were found hidden under a vehicle door panel.

You are all to be commended for your police work that ultimately led to the safe seizure of two illicit, loaded handguns and a replica BB gun. These weapons were recovered during a motor vehicle pursuit of a stolen vehicle. Five suspects were apprehended after the vehicle crashed and a brief foot chase ensued. Police also recovered two ski masks. It is believed that the stolen vehicle and its occupants were involved in a 7/15 drive-by shooting in the City of Euclid.

Thank you for your continued commitment to exceptional police work.

You are all to be commended for your proactive police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered during a traffic stop. The traffic stop was initiated due to the fact that the vehicle was entered as stolen (taken by armed suspects) through the Cleveland Police Department. The driver/suspect (sole occupant) refused to stop for police and a pursuit ensued. He eventually crashed the vehicle and then attempted to flee on foot. He was apprehended. He was wearing black latex gloves when apprehended. The recovered handgun was found to contain an illegal "switch" making the handgun fully automatic. The 26 year old male suspect had recently been released from prison after serving eight years on a previous violent felony. Police also recovered an amount of a white powder which will be sent to the lab for testing.

You both are to be commended for your work on an arrest of a suspect in possession of a loaded firearm. This incident was the result of a traffic stop on Euclid Ave. While speaking with the driver, you detected the odor of burnt marijuana from the vehicle. The suspect driver and all three occupants denied the presence of a loaded firearm when asked by law enforcement. You successfully located a Taurus 9mm with a loaded magazine in the center console.

During your investigation, you learned the driver had prior felony convictions prohibiting him from legally possessing the firearm. The driver was arrested and the firearm seized along with suspected narcotics.

You are to be commended for your work on an arrest of a suspect in possession of a loaded stolen firearm. This incident was the result of a traffic stop for a moving violation. While speaking with the driver, you detected the odor of burnt marijuana from the vehicle. The suspect driver denied the presence of a loaded firearm when asked by law enforcement. You successfully located a Glock 45 with a loaded magazine and a round in the chamber under the driver's seat.

During your investigation, you learned the Glock was entered as a stolen departmental-issued law enforcement firearm with a neighboring police agency. The driver also had prior felony convictions prohibiting him from legally possessing the firearm. The driver was arrested and the firearm seized without incident.

Your investigative work when locating the stolen law enforcement firearm reflects well on this agency. Your commitment to prevent prohibited persons possessing stolen firearms from harming society is commendable.

You are all to be commended for your police work that ultimately led to the safe seizure of an illicit firearm. During a traffic stop on Babbitt Rd., you located a Glock 27, with a loaded magazine inserted and a round in the chamber.

During your traffic stop, you detected the odor of burnt marijuana and the driver knowingly failed to disclose the possession of a loaded firearm when asked by law enforcement. Your suspicion of the suspect driver's behavior at the onset of the traffic stop (slow to stop) was confirmed when you located the loaded firearm under the driver's seat of the vehicle. The driver was identified, cited for traffic violations and released without incident while the firearm was seized pending further investigation.

COMMENDATION FOR A JOB WELL DONE

(Re: Incident # [REDACTED] on 05-30-25)

You are both to be commended for your proactive police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered during a traffic stop. The driver/suspect failed to disclose the presence of the firearm when asked by police (even though police could observe a portion of the weapon in plain view). This male was found to be 20 years of age and therefore not of legal age to possess said handgun.

Thank you both for your continued commitment to exceptional police work!

Respectfully,

You are all to be commended for your police work that ultimately led to the safe seizure of two illicit firearms. During a traffic stop on Euclid Ave., you located a Polymer 80 without any serial number on the slide, barrel, or frame. The handgun had a loaded magazine inserted in the frame. A second handgun, a Glock 20, was located with a loaded magazine also inserted in the frame.

During your investigation, the passenger originally concealed his identity and you ultimately learned he had a weapons offense warrant with the Cuyahoga County Sheriff's Office. Both the driver and passenger are prohibited from possessing firearms based on prior convictions. Both males were safely transported to jail.

Thank you for your continued commitment to exceptional police work!

You are all to be commended for your police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered while Officers were handling a call for service involving the report of a gunshot inside of a residence. Ultimately, it was determined that an adult male in the residence had fired the single round. After first telling Officers that no shot had been fired in the residence, he then told Officers that he had unintentionally fired the round while cleaning his handgun. This male was found to be intoxicated and to have a criminal history that would preclude him from legally possessing a firearm. Fortunately, no one was injured during this incident. There were numerous people in the residence when the shot was fired, to include juvenile family members.

These weapons were recovered while Officers were handling a call for service involving a Domestic Violence/Felonious Assault (stabbing). The highly chaotic scene involved multiple parties. These parties included the 17 year old combatants (the boyfriend and his pregnant girlfriend) and the 70 year old apartment owner. Two other adult males in the apartment were found to have felony warrants for their arrest. One of the parties attempted to flee on foot, but he was apprehended by police. This male had also attempted to conceal his identity. Police also located and seized - multiple amounts of suspected illicit narcotics, drug paraphernalia and \$426 in U.S. cash currency.

Thank you all for your continued commitment to exceptional police work!

(Re: Incident [REDACTED] on 01-10-25)

You are both to be commended for your proactive police work that ultimately led to the safe seizure of an illicit, loaded handgun (a 9mm, AR pistol). This weapon was recovered during a traffic stop. This vehicle contained five occupants. The front seat male passenger lied to police about his identity. It was eventually determined that this male had multiple felony warrants for his arrest. Police also located and seized – multiple amounts of marijuana, a digital scale, multiple cell phones, numerous pills (suspected illicit narcotics), a bag containing a powdery substance, ammunition, a bag of suspected psilocybin “magic mushrooms”, counterfeit currency and \$1,423.60 US currency.

Thank you both for your continued commitment to exceptional police work!

Report # [REDACTED]

On December 26th, 2024, at approximately 2220 hours, the above-listed Euclid Officers responded to 19170 Monterey Ave. for a shots fired call. A 68-year-old Air Force veteran was suffering from a severe mental health crisis and discharged firearms outside his residence. Additionally, the male threatened to shoot anyone who came onto his property.

Neighbors called 911 to report the erratic behavior and expressed fear of being shot. Euclid Officers responded and formed a perimeter around the house. As officers took their positions, the suspect discharged another round from a shotgun. Officers surrounded the house and took defensive positions to ensure public safety. It should be noted that officers who responded to the scene from side jobs stayed well beyond their normally scheduled hours to assist.

Both officers and CVD dispatch attempted to reason with the subject for a peaceful resolution; however, he was unwilling to surrender. Supervisors on scene contacted EDGE SWAT to respond to a barricaded subject. After several hours, the standoff ended with the suspect being taken into custody without injury. The suspect was transported to the hospital for clearance and was later booked at the Cuyahoga County Jail for discharging firearms within city limits.

COMMENDATION FOR A JOB WELL DONE

(Re: Incident # [REDACTED] n 10-18-24)

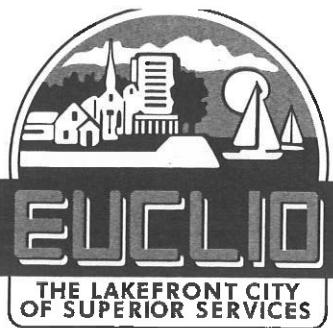

You are all to be commended for your proactive police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered while police were checking on a vehicle parked in a city park. The park was closed at the time police made contact with this vehicle. When asked by police, both occupants denied that there were any weapons in the car. Police observed an open container(s) of alcohol in the vehicle. A passenger was found to be in possession of the firearm. He was found to have a history of criminal convictions which would preclude him from legally possessing a firearm.

Thank you all for your continued commitment to exceptional police work!

You are all to be commended for your police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered while Officers were handling a call for service involving shots fired. The location of this call for service was the same location as a homicide that occurred earlier that same day. Officers arrived on scene for this second call for service. A male suspect was located and he fled from police on foot. He was apprehended a short time later. He was highly uncooperative and confrontational with police. He attempted to wrestle a taser from one of the Officers. He bit one of the Officers and spit directly into the face of two Officers. The loaded handgun was found on his person. This suspect was found to have criminal convictions which preclude him from legally possessing a firearm.

You are to be commended for your proactive police work that ultimately lead to the safe seizure of a handgun. After identifying a register owner with an active warrant, you then observed multiple traffic violations and initiated a traffic stop. You quickly determined the driver to be intoxicated. He refused to submit to field sobriety testing, so you detained him for safety and arrested him for operating a vehicle impaired. During the tow inventory you seized a loaded handgun from underneath the driver's seat. Although the driver used vulgar remarks about your family, you remained professional issuing him traffic and criminal citations before having him transported on his warrant. You are both to be commended for your proactive police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered during a traffic stop. The stopped vehicle contained three young males (a 19, 17 & 16 year old). The 19 year old driver/suspect was found to have a suspended driver's license. He denied that there were any weapons in the vehicle. Multiple amounts of packaged marijuana and two scales were also located in the vehicle. No one in the vehicle was of legal age to possess the handgun and/or the marijuana.

(Re: Incident [REDACTED] n 03-19-24)

You are all to be commended for your proactive police work that ultimately led to the safe seizure of two (2) illicit, loaded handguns. These weapons were recovered as part of a traffic stop. The traffic stop was related to the vehicle being entered as stolen out of the city of Euclid. The vehicle did not immediately stop for police. The occupants then all exited the vehicle and fled on foot. The five occupants were all juveniles. All five juveniles were apprehended by police. Ultimately, two loaded handguns were located and seized. One of the handguns had a high-capacity magazine and a tactical laser sight/flashlight.

Cleveland Police detectives responded to the EPD to interview these juveniles related to a shooting in Cleveland.

(Re: Incident [REDACTED] on 03-09-24)

You are all to be commended for your proactive police work that ultimately led to the safe seizure of two (2) illicit handguns and ammunition for said weapons. These weapons were recovered during a traffic stop. There were three adult males (21 to 22 years of age) occupying the stopped vehicle. The operator and the two passengers were all found to have no driving privileges. Police determined that one of the handguns was possessed by the driver and the second handgun was possessed by the front seat passenger. The handgun possessed by the front seat passenger was found to be entered as stolen property through the Cleveland Police Department. The driver was found to have a history of criminal convictions which would preclude him from legally possessing a firearm. The rear seat passenger was found to have an outstanding arrest warrant with the Mentor Police Department. Police also located and seized a small amount of marijuana.

You are all to be commended for your proactive police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered while Officers were out on foot patrol, checking on a nuisance property (liquor establishment). Even at 3:20am, the area was occupied by a large crowd. Officers checked on an illegally parked vehicle in which parties were consuming open containers of alcohol. The operator of this vehicle was extremely uncooperative with police (as was his female passenger). Police observed a handgun on the driver's side floorboard. Police were forced to struggle with this impaired driver/suspect, in order to gain control of him. Police also located an open bottle of tequila in the vehicle.

You are both to be commended for your proactive police work that ultimately led to the safe seizure of an illicit, loaded handgun. This weapon was recovered during a traffic stop. Police also located a high-capacity, 50 round drum magazine for said handgun. The driver/suspect was found to have an active felony arrest warrant through the Mayfield Heights Police Department for Identity Theft. The driver/suspect was also found to have a criminal record which precludes him from legally possessing a firearm. Police also located two (2) open containers of tequila.

Thank you both for your continued commitment to exceptional police work!

COMMENDATION FOR A JOB WELL DONE

(Re: Incident [REDACTED] n 08-28-23)

You are all to be commended for your police work that ultimately led to the safe seizure of two (2) illicit, loaded handguns. These weapons were recovered while police were investigating a suspicious vehicle/activity call for service. This incident involved a car stopped at a traffic light, with the vehicle in drive and both occupants (driver and front seat passenger) passed-out. Both parties were found to be intoxicated. Both parties had a handgun in their possession. The operator/suspect was found to have a suspended driver's license. He was also found to have a history of felony convictions, which preclude him from legally possessing a firearm. Police also located an open bottle of tequila and marijuana in the vehicle.

Thank you all for your continued commitment to exceptional police work!

(Re: Incident [REDACTED] on 08-27-23)

You are all to be commended for your police work that ultimately led to the safe seizure of an illicit handgun and ammunition for said weapon. This weapon was recovered while police were investigating a one car motor vehicle accident. The operator/suspect was the sole occupant in this crashed vehicle. Initially, he was found to be passed-out upon police arrival. Ultimately, he was found to be intoxicated and was uncooperative/resistant with police. The handgun was found located in his pant pocket. He was found to have a felony criminal conviction which would preclude him from legally possessing a firearm. Police also located an open container of beer in the crashed vehicle.

Thank you all for your continued commitment to exceptional police work!

You are all to be commended for your proactive police work that ultimately led to the safe seizure of a loaded handgun. This weapon was recovered while police were investigating a handicap parking violation. This occurred at a city park. Several of the parties involved were in possession of open containers of alcohol. There were also four children accompanying these adults, ages 3-5 years old. The male who had the handgun protruding from a pocket of his sweatpants was found to be intoxicated. When earlier asked by police if he was in possession of a firearm, he indicted that he was not. Another one of the adults involved was found to have a misdemeanor arrest warrant for a traffic violation thru the Shaker Heights Police Department. Police additionally located and seized marijuana and suspected MDMA "molly".

Commendation for Job Well Done

(Re: Incident [REDACTED] on 07/21/2023)

On 07/21/2023 at approximately 0215 hours, officers took a report for a vehicle that was involved in a hit-skip where the passenger was shooting at the victim of the crash. The vehicle was described to police as a grey Kia with a Florida plate. After running the plate through LEADS, you learned the vehicle was stolen.

At approximately 0400 hours [REDACTED] located the vehicle W/B on Euclid Ave. PO Mitchell (lead car) and [REDACTED] (secondary car) began to pursue the vehicle along with other officers. PO Mitchell lost sight of the vehicle in the area of St. Clair and East 157 Street. Minutes later PO Reed located the suspect vehicle on School Ave and East 157 Street. PO Reed began to pursue the vehicle with PO Puszakowski / PO Kovach (FTO) as the secondary unit. The pursuit went 15.11 miles and was 20 minutes long.

The pursuit ended in the area of Waterloo Rd and East 165 Street where the occupants jumped from the car. You all did an excellent job setting up a perimeter and kept good communication with each other which ultimately led to three of the five occupants being located and arrested. One 18-year-old and two 14-year-old juveniles.

I commend you all for your vigilance, situational awareness, and professionalism during this stressful event. Given the level of danger, I am extremely proud of how you all responded to back each other up. You all represented the Euclid Police Department in a positive manner during this high-stress situation.

A copy of this commendation will be forwarded up through the chain of command to the Chief of Police.

Documented Counseling

[REDACTED] on May 31, 2025, you were assigned to EPD unit [REDACTED]. You assisted several other units, including me, K9 Sgt. Lally #160, with a vehicle with heavy fresh front-end crash damage that was driving the wrong way (west in east lane) of Lakeland Blvd. The car traveled to 1081 E.200 and pulled into drive.

I requested other EPD units to assist, and you arrived on the scene, blocking the car in the drive to prevent it from fleeing. After the initial investigation, it was determined that the female driver was highly intoxicated with her 9-year-old child in the car with her. Additionally, it was found that she struck a crossing signal and a large one-way road sign at the intersection at E.260 and Lakeland Blvd.

Once concluding your assistance, you backed out 1081 E.200, backing into my EPD K9 Dodge Durango unit in the right front bumper, causing minor damage to both the EPD K9 unit and the left rear bumper marker light of EPD unit [REDACTED]. You immediately stopped and addressed the accident with me.

A crash report was completed RE [REDACTED] relating to this MVA, which occurred on a public roadway. Additionally, the female driver was arrested for OVI, child endangering, and hitskip.
(RE [REDACTED])

In conclusion, you're being issued a counseling due to the accidental damage caused to City of Euclid property, RE: EPD [REDACTED] There is no similar discipline in your file.

Investigation

5-31-25 - [REDACTED] was driving EPD unit [REDACTED] and accidentally backed into EPD K9 Durango. The MVA crash occurred in front of the drive 1081 E. 200 St. The collision occurred after [REDACTED] assisted blocking in a OVI/Hitskip suspect vehicle at 1081 E. 200 St. P.O. [REDACTED] backed into the K9 Durango causing minor damage to the front right bumper K9 Durango and rear left marker light and bumper of EPD [REDACTED] assigned P.O. Ramos #65 to conduct the initial crash investigation, which included taking photos. [REDACTED] took immediate accountability for the crash.

A text message was sent to Lt. Williams and Capt. Holden, regarding the incident with the corresponding report number.

06-05-25 - I reviewed and forwarded the completed MVA crash report [REDACTED] to the records department. I emailed Rich Persusek, Dan Knecht, and Law Director Patrick Cooney the crash report and photos of the EPD units' damage. I requested an estimate of the damage.

Lt. Williams sent me an email requesting a status update on the investigation for disciplinary purposes.

I reviewed the [REDACTED] file, and there are no previous crashes or damage incidents with no similar discipline issues for EPD units.

06-06-25 - Rich Persusek requested the K9 Durango to be brought into the garage to physically inspect it for any damages that couldn't be determined by a photo.

06-10-25 - Rich Persusek inspected the K9 Durango and believes the garage will replace the bumper—minor damage to the bumper, mostly cosmetic. Rich will provide an estimate regarding the damage repair cost for Unit # [REDACTED] which would be minor if it were even fixed; however, the same unit was involved in another unrelated crash that required a large amount of repairs.

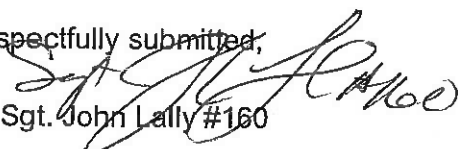

06-15-25 - I attached all related reports to this investigation and authored a counseling for [REDACTED]

Re: Oral Reprimand

Incidents:

1. Report [REDACTED] November 10, 2025: During a traffic stop near 1500 E. 193rd Street, you initiated contact for equipment and traffic violations, suspected marijuana use, and conducted a probable cause search. At the conclusion of the stop, the driver requested your badge number and name. You provided your badge number but refused to give your name, instead responding:

- [REDACTED] "that's my name... that's my fucking name, you heard me dog."

2. Report [REDACTED] November 1, 2025: During a high-risk incident involving a stolen vehicle near E. 191st Street & Euclid Avenue, after the suspect fled upon you initiating the traffic stop front-end to front-end, the suspect vehicle later crashed into your patrol unit. After the driver foot bailed from the suspect vehicle and you were almost struck by the passenger who took over driving. A pursuit occurred and after crashing the suspect was apprehended following a brief foot pursuit. While the suspect was supine and secured in handcuffs, you grabbed him by the hair, turned his face toward you and yelled:

- "What's up little motherfucker, how you doing son, what's up boy."

3. Report [REDACTED] September 20, 2025: During a traffic stop on Euclid Avenue near Highland Road, you assisted PTL Gorbey. While directing the occupants from the vehicle, you engaged in a verbally argumentative exchange at the roadside. The driver later contacted the department and spoke with me for approximately 30 minutes expressing concerns about your demeanor.

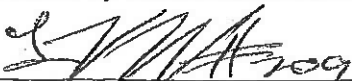

I counseled you following the incident and advised you to be mindful of how you interact with the public and to treat individuals with courtesy. You were receptive at that time.

Violations Rule and Regulation and Policy and Procedure: 1100.3.28 COURTESY

Your actions during these three separate incidents were discourteous, unnecessary, and inconsistent with departmental expectations for professional interactions with the public. Going forward you shall demonstrate patience and professionalism especially under stress or provocation. You shall not engage in unnecessary physical contact with secured individuals. When asked for identification, you shall provide your name and badge number.

DO YOU UNDERSTAND AND ACCEPT

1. Do you understand and accept that there is a definite hazard in working as a police officer? _____
2. Do you understand and accept that as a police officer you will not have normal days off or vacations during prime vacation months because we operate on a seniority basis? Monday and Tuesday off or vacation in February would not be unusual? _____
3. Do you understand and accept that as a police officer in Euclid you will probably work on a rotating shift with a change each month? It is possible to spend your entire career in this manner? _____
4. Do you understand and accept that, except for purposes of special training, you will be required to work evening and night shifts almost exclusively for the first part of your career on the Euclid Police Department? _____
5. Do you understand and accept that for the purpose of police education you will be required to attend special schools? Some of these schools will be for periods up to many weeks long, and they may be out of the Cleveland area or out of the State of Ohio? _____
6. Do you understand and accept that you may be called in to work at any time, even on days off or during vacations? _____
7. Do you understand and accept that at times you will work with groups of other police officers, at other times with one other police officer, and at times you will be working alone? _____
8. Do you understand that the Police Department is a uniformed organization and that your appearance must meet the standards as prescribed by the Chief of Police? _____
9. Do you understand and accept that the Police Department is a semi-military organization and that you must obey all legal orders directed to you by a superior officer? _____
10. Do you understand and accept that the Police Department will invest time, effort, and money toward your education and clothing when you become a Euclid police officer? Do you understand and accept that you may be required to pay back a portion of that investment should you decide to leave our service prior to the time you become a first class patrolman? _____

August 4th [REDACTED]

[REDACTED]

It is my pleasure to confirm the following offer of employment to you on behalf of The City of Euclid Police Department. Your employment is tentatively scheduled to begin around [REDACTED]. This offer is contingent upon your successful completion of the following:

1. Psychological evaluation
2. Pre-employment medical examination (including drug screen urinalysis)
3. OPOTA Certification following completion of basic police academy
4. Successful completion of a one year probationary period that begins at the end of the Field Training Program (While on probation your employment is temporary and "at-will" which means discipline and/or discharge by the City is not subject to the collective bargaining agreement or the city employment manual.)

You are eligible, on your first day of full-time employment, to enroll in the current City of Euclid health, vision and dental insurance coverages that are available per policy. Vacation, personal time and sick time are accrued pursuant to City and State policy.

By signing below you acknowledge this offer letter represents the entire agreement between you and the City of Euclid and that no verbal or written agreements, promises or representations that are not specifically stated in this offer, are or will be binding upon the City of Euclid.

FUNDAMENTAL RULES OF FIREARM SAFETY

Treat ALL FIREARMS as if they are LOADED at ALL TIME. Never POINT the GUN at anything you are not willing to KILL, or where a negligent DISCHARGE will cause harm. Keep your FINGER off of the TRIGGER until you have made the decision to fire and have consciously begun the process of firing. When shooting, always be sure of your TARGET, BACKSTOP, and BEYOND.

GRAHAM V. CONNOR: RELEVANT FACTORS CONSIDERED WHEN USING PHYSICAL FORCE

1. The SEVERITY of the crime suspected
2. Whether the suspect poses an IMMEDIATE THREAT to the safety of the OFFICER or PUBLIC.
3. Whether the suspect is ACTIVELY RESISTING.
4. Whether the suspect is attempting to EVADE ARREST by FLIGHT.

EPD P&P 419: USE OF FORCE & FIREARMS

Officers may use only the degree of force which is DISCRETIONARY NECESSARY to effect lawful objectives. **Deadly** force may be used only to protect YOURSELF and OTHERS against DEATH and SERIOUS PHYSICAL HARM.

Weather / Temperature: -1° or Level #1 (Circle One) Level #1
Method of Contamination: Direct Spray to face

Initial effects on contaminated person:
- After 3-4 blinks of my eyes I could not open them.
- Face was hot

- On contact no immediate reaction, After around 5 seconds burning began.

How long did contaminated person decontaminate? What items were used in decontamination?
I took 15 minutes to decontaminate. I used water and soap throughout the process. After opening my eyes under the water is when the effects started to go away.

What are effects on contaminated person after 30 minutes from initial contamination?
After 30 minutes my face was still warm and eyes felt sandy. My eyes were open and vision was good.

What are effects on contaminated person after 1 hour from initial contamination?
Still had slight stinging sensation and burning on face. Water would reactivate the spray.

What are effects on contaminated person after 2 hours from initial contamination?
After 2 hours most sensations were gone. Water still activated spray. Eyes were still sensitive.

DISCLOSURE AND RELEASE FROM LIABILITY

1. **Disclosure of Risk.** The SABRE Instructor Certification Course (SABRE Course) includes physical activities and exposure to SABRE Oleoresin Capsicum (SABRE OC Exposure) which can cause eye, skin, nose, throat and lung irritation, redness and swelling of the eyes, difficulty breathing and burning sensations to the skin. The pain is caused by the bodies reaction to the OC. Participation in the SABRE Course can cause eye, skin, nose, throat and lung irritation, redness and swelling of the eyes, difficulty breathing, and burning sensations to the skin and eyes.

2. **Assumption of Risk.** I am participating voluntarily in the SABRE Course with knowledge of the risks involved. I HEREBY AGREE TO ACCEPT ANY AND ALL RISKS INCLUDING, BUT NOT LIMITED TO, SKIN, EYE, NOSE, THROAT, AND LUNG IRRITATION, REDNESS AND SWELLING OF THE EYES, DIFFICULTY BREATHING, AND BURNING OF THE SKIN AND EYES.

3. **Certification.** I certify that I am 18 years old or older. I also certify that I do not have any of the following medical conditions: AIDS, HIV, HEPATITIS, HEMOPHILIA, EPILEPSY, HEART DISEASE (ESPECIALLY THOSE REQUIRING CARDIAC PACEMAKERS), HIGH BLOOD PRESSURE, ANY MEDICAL CONDITION(S) THAT COULD BE AGGRAVATED, TRIGGERED OR TRANSMITTED BY PARTICIPATING IN THE OC EXPOSURE, OR ANY OTHER DISEASE(S) OR CONDITION(S) COMMUNICABLE BY BLOOD OR SKIN CONTACT. I also certify that I am not hypersensitive to pain, that I do not suffer from fainting spells or dizziness, and that I am willing to suffer from my SABRE OC Exposure. I VERIFY MY STATEMENTS IN THIS PARAGRAPH BY PLACING MY INITIALS HERE: [REDACTED]

4. **Release.** As consideration for being permitted by Security Equipment Corporation to participate in the SABRE Course, I hereby release Security Equipment Corporation and its individual members, and their respective directors, officers, trustees, insurers, attorneys, consultants, affiliates, employees, contractors, agents, and members from all actions, claims, or demands that I, my assigns, heirs, and legal representatives now have or may have in the future for any loss, liability, injury, or damage resulting from my participation in the SABRE Course.

5. **Knowing and Voluntary Execution.** I HAVE CAREFULLY READ THIS RELEASE AND FULLY UNDERSTAND ITS CONTENTS. I AM AWARE THAT THIS IS A RELEASE OF LIABILITY AND A CONTRACT THAT IS BINDING. I HAVE SIGNED THIS CONTRACT OF MY OWN FREE WILL.

AGREEMENT AND RELEASE FROM LIABILITY

Voluntary Participation

I, [REDACTED], acknowledge that on the 29 day of December, 2017, I voluntarily agreed to participate in a demonstration of PepperBall® technology at the premises of Euclid Police Department located at 545 E 22nd St, Euclid OH

I hereby consent and agree to the following:

1. Permission. I hereby grant PepperBall, their agents, contractors, employees, officers, directors, shareholders, affiliates, licensees, successors and assigns permission to film and/or videotape my likeness and record my voice for the purposes of using the same, as well as information to include but not be limited to my name, (collectively the "Material") in connection with the advertising, promoting, distributing, training, and demonstration of PepperBall products and/or services (collectively "Products and Services"). I understand that PepperBall may edit the Material or combine it with other material unrelated to me. I hereby consent and authorize PepperBall to use, publish, broadcast, exhibit, distribute, produce, and reproduce the Material in perpetuity in any media worldwide, without any payment or compensation to me.

2. Assumption of Risk. I AM AWARE THAT MY PARTICIPATION IN THE DEMONSTRATION IS A HAZARDOUS ACTIVITY. I AM VOLUNTARILY PARTICIPATING IN THESE ACTIVITIES WITH KNOWLEDGE OF THE DANGER INVOLVED, AND HEREBY AGREE TO ACCEPT ANY AND ALL RISK OF INJURY OR DEATH, AND VERIFY THIS STATEMENT BY PLACING MY INITIALS HERE, [REDACTED]

3. Release. I understand that PepperBall will incur considerable expense in reliance on the permissions, grants, representations and releases contained herein. I hereby release PepperBall from all actions, claims, allegations or demands that I, my successors, heirs, assigns, distributees, guardians, and legal representative(s) now have or may hereafter have for injury or damage resulting from my participation in the demonstration. Further, I hereby agree that I, my successors, heirs, assigns, distributees, guardians, and legal representative(s) will not make a claim against, sue, or attach the property of PepperBall or the supplier of any of the equipment used in the demonstration for any injury or damage which may result directly or indirectly from the negligence or other acts, howsoever caused, of any employee, agent, or contractor of PepperBall or any of its affiliated organizations as a result of my participation in the demonstration.

4. Ownership. I understand that all images, sound recordings, notes, minutes, or feedback in any form resulting from my participation, shall constitute the property solely and completely of PepperBall. I hereby assign any rights to any intellectual property contained therein to PepperBall.

5. Knowing and Voluntary Execution. I HAVE CAREFULLY READ THIS AGREEMENT AND FULLY UNDERSTAND ITS CONTENTS. I AM AWARE THAT THIS IS A RELEASE OF LIABILITY AND A CONTRACT BETWEEN MYSELF AND PTI AND AGREE THAT I HAVE SIGNED IT OF MY OWN FREE WILL. BY:

Training/Deployment Safety Guidelines

Although the PepperBall System is a weapon that is used for compliance and does not fall into the same category as lethal weapons, it is important to follow precautions whenever handling or using any of the PepperBall Launchers or Projectiles.

The 6 Basics

There are six basic projectile launcher safety rules that every PepperBall System operator must remember:

1. Treat all launchers as loaded.
2. Keep your finger outside (above or below) the trigger guard until you are on target and ready to fire.
3. Point the muzzle in a safe direction at all times. Use the Laser Rule to remember to keep the PepperBall Launcher safe during operations. Always treat the muzzle of the projectile launcher as if it is a laser gun with the beam on--whatever the laser beam touches, it cuts through!
4. Be sure of your target and what is beyond it.

5. Do not shoot at the head, neck, or spine. As with other less lethal projectiles, head shots could result in unintentional, severe, and permanent injury, or death. (Officers may be faced with a deadly force situation while armed with a PepperBall launcher. This may require the officer to specifically target the head, neck, or spine of a suspect with the PepperBall launcher. Officers should always follow department policy when dealing with these types of situations)
6. Wear safety glasses or turn head to side when filling HPA bottles.

In addition to the six basics, operators will be required to adhere to the following precautions during training with a PepperBall System:

In training, eye protection must be worn at all times when shooting the PepperBall System. Test eye protection prior to training with PepperBall Projectiles, which may reach velocities in excess of 350 plus feet per second.

Additional mandatory safety equipment for participants in force-on-force training with the PepperBall System includes protection for the face, throat, and groin. Coveralls or long-sleeve sweatshirts are also recommended to protect against accidental discharges.

During training, one person should be designated as safety officer. The safety officer is in charge of inspecting the training area and all participants to ensure there is no live ammunition in the training area. The safety officer shall not participate in scenario training other than as a safety officer.

No live PAVA projectiles should be launched indoors, except in approved facilities. If live PAVA projectiles are launched outdoors, appropriate protective masks must be available for participants.

If at any time someone perceives a situation to be hazardous, they are to shout, "cease fire" until everyone complies. Upon hearing "cease fire" all participants and observers will immediately stop all action and keep launchers pointed in what they consider a safe direction until receiving further instructions.

PepperBall

- Unsafe or frivolous behavior will not be tolerated.
 - This class is designed to give all participants a clear understanding of the PepperBall System. Students should ask the instructor for clarification on any information presented if it is unclear or more detail is required.
 - Any and all injuries should be immediately reported to the instructor.
 - It is the responsibility of participants to disclose any existing health conditions to the instructor prior to the beginning of class.
 - Activities that may aggravate a health condition or chronic injury are to be avoided.
- All participants and spectators must wear protective equipment during PepperBall Projectiles training exercises.

PepperBall Launcher and Projectile Safety Guidelines

The PepperBall Projectiles are hard frangible spheres filled with PAVA powder (training rounds are also available) that are designed to bring suspects into compliance. As with any weapon, there are precautions that must be taken to ensure safe operations with the PepperBall Projectiles:

Eye protections are mandatory for all persons participating in training and live scenario situations. Test eye protection prior to training with PepperBall Projectiles, which may reach velocities in excess of 350 plus feet per second. Additional mandatory safety equipment for participants in force-on-force training with the PepperBall System includes protection for the face, throat, and groin. Coveralls or long-sleeve sweatshirts are also recommended to protect against accidental discharges. Shots to exposed skin are strongly discouraged. Hits may break skin, or cause welts or bruises.

PepperBall Launchers utilize a compressed air delivery mechanism that, on occasion, can fail to function the launcher. This is an excellent opportunity to drill officers on launcher malfunction reactions. In the event of a stoppage or malfunction, attempt to clear it using normal stoppage clearing procedures that are taught with each launcher system. If several attempts do not clear the weapon, unless there is a safety violation or a situation that necessitates the stopping of the scenario, finish the scenario. Then, deal with the launcher malfunction. Getting into the habit of finishing the scenario will translate into effective action on the street in the event of a "real world" launcher failure.

Individual officers/users shall be responsible for ensuring that their launcher is clean and made ready for active duty following a real-world situation or a training session, which will help to prevent launcher malfunction.

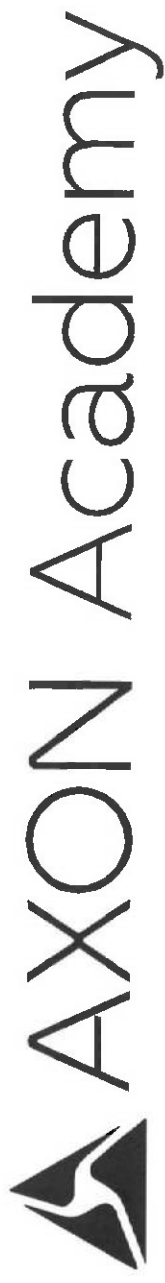

WARNING: Frivolous use of PepperBall Launchers and Projectiles is irresponsible, dangerous and can result in serious injury to a participant. All participants should strictly follow Training Safety Guidelines for the use of PepperBall Systems.

I have carefully and thoroughly read the PepperBall Training/Deployment Safety Guidelines and agree to follow and abide by the terms of the guidelines.

Name: [REDACTED] ☒ New Certification ☐ / Recertification

Agency: Euclid Police

Training Date: 12/29/2022 Location: 545 E 222nd St, Euclid OH

1. The Nervous System consists of the following:

- a) Central Nervous System - Command Center (brain and spinal cord)
- b) Motor Nervous System - Carries commands from the brain to muscles (NMI systems affect BOTH the Sensory and Motor Nerves)
- c) Sensory Nervous System - Brings information into the brain (affected by stun systems)
- d) All of the above

2. In considering the use of a CEW:

- a) Do not use for verbal defiance
- b) Do not use for belligerence
- c) Do not use for punishment
- d) Do not use for horse play
- e) All of the above

3. The preferred target areas for CEW exposure are:

- a) Lower center mass (below chest or area of the heart) and legs for front exposure
- b) Below the neck area for back exposures
- c) Anywhere on the person's body
- d) a and b
- e) a and b (with the back being the most preferred area)

4. As with any use of force, the longer the CEW exposure the greater the risk of potential cumulative physiologic, metabolic, and other effects.

- a) True
- b) False

5. The officer should avoid intentionally targeting the CEW on sensitive areas of the body such as the head, throat, breast, chest (area of the heart), genitals, or known pre-existing injury areas without legal justification.

- a) True
- b) False

6. Probe deployments are more desirable/effective than drive stuns (other than 3-point deployments).

- a) True
- b) False

7. The further a CEW exposure is away from the heart and the fewer CEW cycles applied the greater the safety margin for the CEW affecting the heart.

- a) True
- b) False

8. Controlling/Cuffing under power during the "window of opportunity" can reduce the need for repeated or extended CEW exposures.
 - a) True
 - b) False
9. TASER CEWs are serious weapons and are to be treated as such at all times.
 - a) True
 - b) False
10. When deploying probes to the front of a person's body, the CEW should generally be aimed:
 - a) At the face
 - b) At the chest or area of the heart
 - c) At the waist area to split the beltline
 - d) At the throat
 - e) At the head
11. The risk of a CEW causing or contributing to a person's cardiac arrest is:
 - a) Zero
 - b) Very high
 - c) High
 - d) Higher than the risk of death or serious injury from a firearm
 - e) Very low
12. An officer's use of force must be objectively reasonable under the totality of circumstances as reasonably perceived by the officer at the moment the force is used.
 - a) True
 - b) False
13. When reasonable, Smart Use Considerations include:
 - a) Use the minimum force necessary to accomplish lawful objectives
 - b) Use force only on those "actively resisting" or higher
 - c) Give a verbal warning before the use of force
 - d) Give subjects a reasonable opportunity to comply before force is used or repeated
 - e) Immediately cease any force once a subject is under control
 - f) All of the above
14. Experts have identified the following key factors related to CEW cardiac risks:
 - a) Dart-to-heart distances
 - b) Amount of delivered electrical charge
 - c) Dart anywhere on a person's body
 - d) A and B
15. The term currently used by TASER Training to describe the incapacitating effects of a CEW is:
 - a) Electro-muscular disruption (EMD)
 - b) Neuro-muscular incapacitation (NMI)
 - c) Neuro-muscular disruption (NMD)
 - d) Electro-muscular incapacitation (EMI)
16. When using the CEW in Drive-Stun Mode:
 - a) Follow agency policy
 - b) Use care when applying the drive stun to the neck or groin
 - c) Stay away from the trachea, the back of the neck, and the genitals
 - d) All of the above

17. During CEW voluntary exposures which of the following are required safety rules?
- Always use two spotters when volunteer is standing
 - Spotters must hold volunteers closely under the armpit to stabilize the shoulder and upper arm
 - The volunteer should be safely supported and carefully lowered to the ground
 - All of the above
18. The handheld electronic weapons manufactured by Axon (formerly TASER) are referred to as:
- Electronic Control Weapons
 - Shock devices
 - Conducted Energy Weapons
 - Conducted Energy Devices
19. A single CEW trigger pull and release discharges an electrical charge for a:
- 10 second cycle
 - 5 second cycle
 - 4 second cycle
 - The cycle always stops as soon as the trigger is released
20. A pre-shift 5-second CEW spark/functionality test is recommended to:
- Ensure the CEW is sparking and functioning properly
 - Create muscle memory
 - Practice drawing and holstering the CEW
 - Teach proper CEW safety
21. TASER Training does not set use-of-force policies, general orders, or procedures
- True
 - False
22. Activated CEWs can ignite:
- Gasoline and gasoline vapors
 - Butane
 - Some personal defense sprays
 - Some hair sprays or gels
 - All of the above
23. A CEW application on a person can cause physiologic or metabolic effects, including, but not limited to, changes in:
- Blood Chemistry
 - Heart rate, and rhythm
 - Blood pressure
 - Respiration
 - Adrenaline and Stress hormones
 - All of the above

24. Some examples of persons who are at an elevated risk of secondary effects from a CEW exposure include:
 a) Running persons
 b) Persons in elevated positions
 c) Persons in a flammable environment
 d) All of the above
 e) ☒ A & C
25. When considering the use of force, when reasonable:
 a) Give subjects a reasonable opportunity to comply before force is used or repeated
 b) Use pain compliance even if pain is reasonably foreseeable ineffective
 c) Immediately cease any force once a subject is under control
 d) Continue to use force once a subject has surrendered or is captured, handcuffed, and controlled
 e) ☒ A & C
26. An officer should avoid repeated or continuous CEW exposures unless necessary to counter immediate threat
 a) ☒ True
 b) ☐ False
27. Post CEW use, as with all force options, officers should monitor the subject and initiate EMS/CPR protocol if subject becomes unresponsive.
 a) ☒ True
 b) ☐ False
28. TASER does **NOT** require a CEW exposure for instructor or user certification.
 a) ☒ True
 b) ☐ False
29. Axon Evidence (Evidence.com) is a program offered by Axon that allows agencies:
 a) Access CEW firing records
 b) Cloud storage solution
 c) Assign CEWs to individual users
 d) ☒ All of the above
30. Use the shortest duration of CEW exposure objectively reasonable to accomplish lawful objectives and reassess the subject's behavior before repeating or continuing the exposure.
 a) ☒ True
 b) ☐ False

Volunteer: Warnings, Risks, Release & Indemnification Agreement
(For use with any TASER CEW exposure that is not part of TASER CEW Training)

SAFETY INFORMATION: CEW DEPLOYMENT AND USE

WARNING CEWs and cartridges are weapons, and as with any weapon follow safe weapon-handling practices and store your CEW securely. Significant differences exist between different TASER CEW models. Before using any CEW, including a multi-shot CEW, ensure you understand the functioning and effects of that model. Follow practices in Axon's TASER warnings and training materials. Failure to follow the warnings may result in death or serious injury to the user or others.

WARNING Confusing Handgun with CEW. Confusing a handgun with a CEW could result in death or serious injury. Learn the differences in the physical feel and holstering characteristics between your CEW and your handgun to help avoid confusion. Always follow your agency's Guidance and training, if applicable.

SAFETY INFORMATION: CEW EFFECTIVENESS

WARNING Subject Not Incapacitated. An ineffective CEW application could increase the risk of death or serious injury to the user, the subject, or others. If a CEW does not operate as intended or if subject is not incapacitated, disengage, redeploy the CEW, or use other force options. A CEW's effects may be limited by many factors, including absence of delivered electrical charge due to misses, clothing disconnect, intermittent connection, or wire breakage; probe locations or spread; subject's muscle mass; or movement. Some of the factors that may influence the effectiveness of CEW use in effecting or achieving control of a subject include:

Subject may not be fully incapacitated. Even though a subject may be affected by a CEW in one part of his body, the subject may maintain full muscle control of other portions of his body. Be prepared in case the subject is not fully incapacitated. Subject may recover immediately. A subject receiving a CEW discharge may immediately regain physical or cognitive abilities upon cessation of the delivered CEW discharge. Be prepared in case the subject immediately recovers.

Drive-stun mode is for pain compliance only. The use of a handheld CEW in drive-stun mode is painful, but generally does not cause incapacitation. Drive-stun use may not be effective on emotionally disturbed persons or others who may not respond to pain due to a mind-body disconnect. Avoid using repeated drive-stuns on such individuals if compliance is not achieved.

WARNING Unintentional CEW Deployment or Discharge Hazard. Unintentional CEW activation or unexpected cartridge discharge could result in death or serious injury to the user, subject, or others.

Avoid static electricity. Keep cartridge away from sources of static electricity. Static electricity can cause a CEW or standard cartridges to discharge unexpectedly, possibly resulting in serious injury.

Keep body parts away from front of CEW or cartridge. Always keep your hands and body parts away from the front of the CEW and cartridge. If the CEW discharges unexpectedly you could be injured.

IF YOU HAVE A CONDITION OR PRE-EXISTING INJURY THAT COULD BE AGGRAVATED BY RECEIVING A CEW EXPOSURE, NOTIFY THE INSTRUCTOR AND DO NOT PARTICIPATE.

Please check all boxes that apply:

☒ I want to receive a voluntary TASER CEW exposure.

☐ I do NOT have any pre-existing injuries or conditions that could be aggravated by a voluntary exposure.

☒ I understand the risks associated with receiving a voluntary exposure and fully assume all risks.

LIABILITY RELEASE & INDEMNIFICATION AGREEMENT

In consideration of, and as a condition precedent to, receiving information on TASER products and a CEW Exposure, I acknowledge and agree as follows:

I have read, fully understand and accept the risks. I have read, fully understand, and accept the risks as stated in this document and Axon's current TASER warnings ("Risks") and that these risks exist whether or not I have pre-existing injuries. With full knowledge of the Risks, I voluntarily agree to receive a CEW exposure.

I accept the Risks. Understanding the Risks, I assume all Risks inherent in the CEW exposure, whether known or unknown, foreseen or unforeseen.

Release and hold harmless. I release and hold harmless Axon, its agents, officers, directors, employees, distributors, my instructor, and my employer (collectively "Released Parties"), from any and all claims, including but not limited to, claims for strict liability, breach of warranty, failure to warn, or any other theory of liability whatsoever even if due to the NEGLIGENCE or GROSS NEGLIGENCE of the Released Parties. I specifically waive any statutory rights I may have regarding the release of unknown claims.

I agree no one will sue Released Parties. I promise that neither I nor anyone on my behalf will ever sue or bring any other legal action or claim against the Released Parties for anything related to my TASER CEW voluntary exposure.

I will fully indemnify (reimburse) all costs of Released Parties. I further agree that if I or anyone else files any claim against any Released Party arising out of my TASER CEW exposure in violation of this agreement, I will defend, indemnify and reimburse the Released Parties for any judgment, court costs, expenses, and reasonable expert and attorney fees regardless of who prevails.

Workers' Compensation Rights. This release does not waive any rights I may have under Workers' Compensation Laws. However, I waive any Workers' Compensation subrogation rights against the Released Parties and agree to defend and indemnify Axon against any and all claims that may be brought against it by my employer. I agree that any recovery under Workers' Compensation Laws does not change, extend or enlarge the waivers and protections inherent in this agreement. This release supersedes any other representation, written or oral, concerning my TASER CEW exposure. I affirm that this is my entire agreement with Axon and I am not relying on any representation by my instructor or employer. This agreement is a binding contract. I intend this form to be legally binding upon me, my heirs, executors, administrators, attorneys and assigns. This agreement is contractual and not a mere receipt. If any part of this agreement is held vague, invalid, or otherwise unenforceable, the rest of the agreement will continue in full force and effect.

I am competent to be bound by this agreement. I affirm that I am competent to enter into and be bound by this agreement; that I have read and understand this Liability Release & Indemnification Agreement in its entirety; that I have not been induced to sign this agreement by any promise or representation; and that I sign it voluntarily and of my own free will. By signing below I understand that I am giving up certain legal rights, including the right to recover damages in case of injury.

Volunteer: Warnings, Risks, Release & Indemnification Agreement
(For use with any TASER CEW exposure that is not part of TASER CEW Training)

Axon Enterprise, Inc. (Axon) TASER conducted energy weapon (CEW) exposures are physically strenuous and there is a risk of personal injury. BEFORE participating in any TASER CEW voluntary exposure, each participant MUST read the most current TASER CEW warnings and read and sign this form.

This document incorporates all current TASER CEW warnings by reference, which can be found at www.axon.com. This document is effective January 24, 2019, and supersedes all prior revisions.

IMPORTANT SAFETY AND HEALTH INFORMATION

Read, understand, and follow all current instructions, warnings, and relevant TASER training materials before experiencing a CEW exposure. Failure to do so could increase the risk of death or serious injury to the volunteer, instructor, participants or others. Always follow all current instructions, warnings, and TASER training materials to minimize CEW risks.

CEW EXPOSURES

Voluntary Exposures. CEW exposures must be limited to a single exposure not exceeding 5 seconds and be performed in accordance with Axon's guidelines and by a Certified TASER Instructor.

Probe Deployments to Back Only. Cartridge deployed probes must be to the back of the torso or back of the legs only.

Spotters. All persons taking a CEW exposure must be properly supported by spotters to prevent falls unless lying down on a mat. Each spotter must hold the person and support the arm under the armpit to prevent arm or shoulder injuries. Eye protection. Eye protection is required for the CEW operator, observers, spotters and the person being exposed to any probe deployment during ALL times. No Minors. No minor will be exposed to a TASER CEW as part of a training course, demonstration, or otherwise.

SAFETY INFORMATION: CEW RISKS AND RISK AVOIDANCE

Muscle Contraction or Strain-Related Injury. CEWs in probe-deployment mode can cause muscle contractions that may result in injury, including bone fractures. CEWs in probe-deployment mode can cause muscle contractions resulting in injuries similar to those from physical exertion, athletics, or sports, including hernia rupture, dislocation, tear, or other injury to soft tissue, organ, muscle, tendon, ligament, cartilage, disc, nerve, bone, or joint; or injury or damage associated with or to orthopedic or other hardware. Fractures to bone, including compression fracture to vertebrae, may occur. These injuries may be more serious and more likely to occur in people with pre-existing injuries, orthopedic hardware, conditions or special susceptibilities, including pregnancy, low bone density, spinal injury, or previous muscle, disc, ligament, joint, bone, or tendon damage or surgery. Such injuries may also occur in drive-stun applications or when a person reacts to the CEW deployment by making a rapid or unexpected movement.

Secondary Injury. The loss of control resulting from a CEW exposure may result in injuries due to a fall or other uncontrolled movement. When possible, avoid using a CEW when secondary injuries are likely.

Seizure. Repetitive stimuli (e.g., flashing light or electrical stimuli) can induce seizure in some people, which may result in death or serious injury. This risk may be increased in a person with epilepsy, a seizure history, or if electrical stimuli pass through the head. Emotional stress and physical exertion, both likely in incidents involving CEW and other uses of force, are reported as seizure-precipitating factors. Fainting. A person may experience an exaggerated response to a CEW exposure, or threatened exposure, which may result in fainting or falling.

Muscle contraction, incapacitation, or startle response. CEW use may cause loss of control from muscle contraction, incapacitation, or startle response.

Cumulative Effects. CEW exposure causes certain effects, including physiological and metabolic changes, stress, and pain. In some individuals, the risk of death or serious injury may increase with cumulative CEW exposure. Repeated, prolonged, or continuous CEW applications may contribute to cumulative exhaustion, stress, cardiac, physiological, metabolic, respiratory, and associated medical risks which could increase the risk of death or serious injury. Minimize repeated, continuous, or simultaneous exposures.

Physiologic and Metabolic Effects. CEW use causes physiologic and/or metabolic effects that may increase the risk of death or serious injury. These effects include:

- changes in blood chemistry, blood pressure, respiration, heart rate and rhythm, and adrenaline and stress hormones, among others. In human studies of electrical discharge from a single CEW of up to 15 seconds, the effects on acid/base balance, creatine kinase, electrolytes, stress hormones, and vital signs were comparable to or less than changes expected from physical exertion similar to struggling, resistance, fighting, fleeing, or from the application of some other force tools or techniques. Some individuals may be particularly susceptible to the effects of CEW use. These susceptible individuals include the elderly, those with heart conditions, asthma or other pulmonary conditions, and people suffering from excited delirium, profound agitation, severe exhaustion, drug intoxication or chronic drug abuse, and/or over-exertion from physical struggle. In a physiologically or metabolically compromised person, any physiologic or metabolic change may cause or contribute to sudden death.

Stress and Pain. CEW use, anticipation of use, or response to use can cause startled, panic, fear, anger, rage, temporary discomfort, pain, or stress which may be injurious or fatal to some people.

Minimize the number and duration of CEW exposures. Most human CEW lab testing has not exceeded 15 seconds of CEW application, and none has exceeded 45 seconds. Use the shortest duration of CEW exposure objectively reasonable to accomplish lawful objectives, and reassess the subject's behavior, reaction, and resistance before initiating or continuing the exposure. If a CEW deployment is ineffective in incapacitating a subject or achieving compliance, consider alternative control measures in conjunction with or separate from the CEW.

Avoid simultaneous CEW exposures. Do not use multiple CEWs or multiple completed circuits at the same time without justification. Multiple CEWs or multiple completed circuits at the same time could have cumulative effects and result in increased risks.

Avoid touching probes/wires during CEW discharge. Controlling and restraining a subject during CEW exposure may put the CEW user and those assisting at risk of accidental or unintended shock. Avoid touching the probes and wires and the areas between the probes during the electrical discharge.

Cardiac Capture. CEW exposure in the chest area near the heart has a low probability of inducing extra heart beats (cardiac capture). In rare circumstances, cardiac capture could lead to cardiac arrest. When possible, avoid targeting the frontal chest area near the heart to reduce the risk of potential serious injury or death. Cardiac capture may be more likely in children and thin adults because the heart is usually closer to the CEW-delivered discharge (the dart-to-heart distance). Serious complications could also arise in those with impaired heart function or in those with an implanted cardiac pacemaker or defibrillator.

Use preferred target areas. The preferred target areas are below the neck area for back shots and the lower center mass (below chest) for front shots. The preferred target areas increase dart-to-heart distance and reduce cardiac risks. Back shots are preferable to front shots when practicable.

Avoid sensitive areas. When practicable, avoid intentionally targeting the CEW on sensitive areas of the body such as the face, eyes, head, throat, chest area (area of the heart), breast, groin, genitals, or known pre-existing injury areas.

SAFETY INFORMATION: INJURY OR INFECTION

Eye Injury Hazard. A TASER probe, electrode, or electrical discharge that contacts or comes close to an eye can result in serious injury, including permanent vision loss. DO NOT intentionally aim a CEW, including the LASER, at the eye of a person or animal without justification.

Probe or Electrode Injury, Puncture, Scarring, or Infection Hazard. CEW use may cause a permanent mark, burn, scar, puncture, or other skin or tissue damage. Infection could result in death or serious injury. Scarring risk may be increased when using a CEW in drive-stun mode, increased skin irritation, abrasion, mark, burning, or scarring may occur with a CEW with multiple cartridge days when used in drive-stun or three-point deployment modes.

Penetration Injury. The TASER probe has a small dart point which may cause a penetration injury to a blood vessel or internal organ, including lung, bone, or nerve. The probe or dart point (which may detach or break) can puncture or become embedded into a bone, organ, or tissue, which may require immediate medical care, surgical removal, or may result in scarring, infection, or other serious injury.

2. Whether the suspect poses an IMMEDIATE THREAT to the safety of the OFFICER or OTHERS.
3. Whether the suspect is AGGRESSIVELY BLASTING _____
4. Whether the suspect is attempting to EVASIVE RESIST by FLIGHT _____.

GRAHAM V. CONNOR: RELEVANT FACTORS CONSIDERED WHEN USING PHYSICAL FORCE

Treat ALL FIREARMS as if they are LOADED at ALL TIMES. Never POINT the MUZZLE at anything you are not willing to SHOOT, or where a negligent DISCHARGE will cause harm. Keep your FINGER off of the TRIGGER until you have made the decision to fire and have consciously begun the process of firing. When shooting, always be sure of your TARGET and BACKGROUND.
