Authoring Agent: SA Douglas Burke #162

Narrative:

On Monday, October 27, 2025, Ohio Bureau of Criminal Investigation (BCI) Special Agent (SA) Douglas Burke (SA Burke) received video footage from Lieutenant Andrew Welch from Findlay Police Department (FPD). SA Burke was informed that the videos contained footage from the body cameras recorded by the FPD. On November 16, 2025, SA Burke reviewed the AXON 4 Body Worn Camera (BWC) video footage worn by FPD Officers. SA Burke reviewed the following FPD Officers BWC, Involved [REDACTED] Involved [REDACTED], Witness Ofc. Eric Lehman (Lehman), and Witness Ofc. Nick Huber (Huber). These officers were a part of the Officer-Involved Critical Incident (OICI) which took place at 1642 Cherry Lane, Findlay, OH 45840 on October 22, 2025.

[Throughout the course of this investigation, the male subject who FPD officers had encountered during the OICI had been later identified as Robert Norton (Robert)].

All video footage mentioned above has been placed in Axon Justice and is available for review upon request. The times are relevant to the video footage from where it was obtained.

SA Burke reviewed the video recordings and noted the following:

ADDITIONAL FACTORS FOR EVALUATING THE VIDEO RECORDINGS

There are numerous other factors that need to be considered when reviewing and evaluating the videos and audio recordings of this incident. Those factors are:

A. Video recording devices record within the video and sound capabilities available, and they record objectively. Video recordings lack the history, perspective, and interest of the people involved. The positions, angles, obstacles, lighting, and distance from the incident are also factors that need serious consideration.

B. Video recording devices also record more information about a particular scene or incident than the person(s) involved in the incident can process during the critical incident. Video recording devices rarely record an event from the same perspective of the officer. It captures the action but not the perception, decision making, focus, or intent of the officer. Video recordings often miss tactile cues or other actions of a subject.

C. The speed of the incident is remarkable. The speed and complexity of rapidly evolving situation(s) that occur during use of force encounters are difficult concepts to comprehend by only watching the video.

The video footage was submitted and placed into Axon Justice, Reference Item A-Video Folder > [REDACTED] BWC, [REDACTED] BWC, Ofc. Huber BWC, Ofc. Lehman BWC Subfolders.
