

Ohio Attorney General's Office  
Bureau of Criminal Investigation  
Investigative Report

2025-1666  
Officer Involved Critical Incident – 909 Garden Ave., Middletown,  
OH 45044 (L)

**Investigative Activity:** Video Review  
**Involves:** [REDACTED] (S)  
**Date of Activity:** 05/27/2025  
**Activity Location:** Ohio Bureau of Criminal Investigation – 1560 SR-56 SW, London,  
OH 43140  
**Author:** SA Steven Seitzman

**Narrative:**

On Tuesday, May 27, 2025, Ohio Bureau of Criminal Investigation Special Agent Steven Seitzman utilized Amped Replay software to generate still images and a slowed-down video clip from the body-worn camera footage of Middletown Police [REDACTED].

SA Seitzman reviewed the following video:

<b>File name:</b>	C:\Users\sseitzman\Documents\2025-1666 Middletown OICI\Working Copy\[REDACTED] BWC.mp4
<b>Playback Fps:</b>	30.00
<b>Length (frames):</b>	7321
<b>Duration (time):</b>	00:04:04.000

SA Seitzman observed that at frame 1856, an individual at the front door of the residence appeared to be holding a silver object resembling a handgun. SA Seitzman created still images of that frame. One still image was unannotated and not resized, while another still image retained the original image size with a rectangular annotation box surrounding the apparent firearm. Another still image was at 200% zoom, also featuring an annotation box around the apparent gun. The last image was the original image size with contrast enhanced by +1, brightness increased by +45, and an ellipse annotation added.

This document is the property of the Ohio Bureau of Criminal Investigation and is confidential in nature. Neither the document nor its contents are to be disseminated outside your agency except as provided by law – a statute, an administrative rule, or any rule of procedure.

At frame 1884, SA Seitzman noted the presence of a second subject inside the residence, presumably Mary Louis Dunn. SA Seitzman created a still image with an ellipse annotation and text box added.

At frame 2045, as [REDACTED] is entering the residence, a silver object is visible on the ground to the right of the involved subject. The object is more clearly identifiable as a silver revolver in frames 4343 and 4415. SA Seitzman created still images of those frames. SA Seitzman added an ellipse annotation to the still image of frame 2045. SA Seitzman increased the brightness by +73 and added an ellipse annotation to the still image of frame 4343. Lastly, SA Seitzman added an ellipse annotation to the still image of frame 4415.

SA Seitzman created a slowed-down video clip from frames 1809 to 1957. The playback frame rate was slowed to seven frames per second.

SA Seitzman also performed a timing analysis of the video. The below-listed frames were *approximations* based on the activity and sound within the footage. The video/audio production indicated the video contained 30 frames per second. Time was calculated by dividing 1 second by 30 frames. The quotient revealed each frame represented 0.0333333333 seconds. Using this calculation, the amount of time that transpired between significant events can be *approximately* calculated by multiplying the number of frames captured between the events by the amount of time each frame represented (0.0333333333). The product represents the *approximate* amount of elapsed time. The number was rounded to the nearest tenth (for instance, 4.49 seconds was rounded to 4.5 seconds).

[REDACTED] BWC							
Officer steps onto front porch	Announcements begin	Halligan tool set in storm door with ram	Halligan tool reset in storm door	Front door begins to open	Subject seen with apparent gun	First gunshot	Last (4th) gunshot
Frame 1270	Frame 1339	Frame 1474	Frame 1759	Frame 1826	Frame 1856	Frame 1872	Frame 1894
-	2.3 seconds	4.5 seconds	9.5 seconds	2.2 seconds	1 second	.5 seconds	.7 seconds
<b>Total duration from entering the porch to the final shot being discharged</b>							
20.8 seconds							
<b>Total duration from the door opening to the final shot being discharged</b>							
2.3 seconds							
<b>Duration of gunfire</b>
