Re: Preservation Letter

Dear Custodian of Records,

I am writing to make a formal request for the preservation of records and other evidence pursuant to 18 U.S.C. 2703(f) pending further legal process. A criminal investigation is being conducted by the Ohio BCI OH regarding the following number: **567-284-3611**

You are hereby requested to preserve, for a period of 90 days, the records described below currently in your possession, including records stored on back-up media, in a form that includes the complete record. You also are requested not to disclose the existence of this request to the subscriber or any other person, other than as necessary to comply with this request. If compliance with this request may result in a permanent or temporary termination of service to the accounts described below, or otherwise alert the subscriber or user of these accounts as to your actions to preserve the referenced files and records, please contact me before taking such actions.

If the number is not associated with a subscriber on your network, you are ordered to still process it as a Call and text to Destination search, to include all text message content, voicemails, and cell-site and sector information related to each call or text.

This request applies only retrospectively. It does not in any way obligate you to capture and preserve new information that arises after the date of this request.

This preservation request applies to the following records and evidence associated with **567-284-3611** for the time period **5/1/2026** through **5/11/2026**:

1. **Specialized Location Records:** All call, voice, text (SMS & MMS), and data connection location information and transactions (registration of network events), related to all specialized carrier

records that may be referred to as LOCDBOR (Location Database of Record), Historical Precision Location Information, Historical Mobile Locate (HML), vMLC (Virtual Mobile Locate - vLMC3, vMLC4, vMLC5), NELOS (Network Event Location System), RTT (Round Trip Time/Return Trip Time/Real Time Tool), PCMD (Per Call Measurement Data), TDOA (Time Difference of Arrival) or Timing Advance Information, Mediation Records, E9-1-1, and/or Historical GPS/Mobile Locate Information which shows GPS location (longitude and latitude) and Cell-Site and sector of the device in relationship to the network when connected to the network for the above referenced number.

2. All records associated with the identified mobile number (**567-284-3611**), relating to all delivered and undelivered inbound and outbound calls, text messages, and text message content to the above listed number, all voice mail, and all data connections from **5/1/2026** through **5/11/2026** and to include date, time, direction, duration, number called or text to and/or received from, bytes up, bytes down, cell-site and sector information related to each call, text, web site and/or application activity (name of web site or application visited and/or accessed) or data connection, all text message content, and voicemails.
3. **FCC TRACED Act STIR/SHAKEN Authentication Standard:** All records associated with the identified mobile number **567-284-3611**, related to the FCC TRACED (Telephone Robocall Abuse Criminal Enforcement and Deterrence) Act, STIR/SHAKEN caller identification framework, identifying all incoming Voice, Text Message Service (SMS) and Multi-Media Service (MMS) traffic, whether or not the caller ID passed or failed authentication. The report shall include the date, time (with time zone), originating and terminating numbers in their original state prior to Stir/Shaken authentication, the status whether it passed or failed authentication, the Attestation type, and the originating and terminating verified number that was used to validate Stir/Shaken Caller ID authentication. The report shall provide all usage events, even if the incoming usage event was blocked and flagged by the service provider (or other third-party entities), prior to delivery to the identified target mobile number.
4. **Time on Tower and/or Sector:** Also provide all cell-site and sector information related to each number called to and/or received from, and data connections, specific to the **"Time on Tower" and/or Sector**, to include information with the start and end date and time for each time the connection was involved in a **"hand-off"** to another cell-site and/or sector, to include the elapsed time (in seconds) for each **"hand-off"**, that was used during and throughout each voice call (whether completed or not), and/or which was used during and throughout each data session.
5. All records associated with the identified mobile number **567-284-3611**, to include all stored communications or files, including voice mail, text messages (including numbers text to and received from and all related content), e-mail, digital images (e.g. pictures), contact lists, video calling, web activity (name of web site or application visited or accessed), domain accessed, data connections (to include Internet Service Providers (ISPs), Internet protocol (IP) addresses, IP Session data, IP Destination Data, bookmarks, data sessions, name of web sites and/or applications accessed, date and time when all web sites, applications, and/or third party applications were accessed and the duration of each web site, application, and/or third party application was

accessed, and any other files including all cell site and sector information associated with each connection and/or record associated with cell number identified as: **567-284-3611**

6. **Verizon Custom Experience (Verizon Selects):** All records associated with the technology known as Verizon Selects, Verizon Custom Experience and Custom Experience Plus, to include device location information specific to the network, regardless of the device location services settings, as well as device location information specific to Verizon apps when permission has been provided by the subscriber to share such information via the device settings. Device Location information shall include Cell-site and sector, date, time, direction, duration, number called, or text to and/or received from, and bytes up/down, information related to each call, and text or data connections. The responsive data shall also include all specialized carrier records that may be referred to as RTT (Round Trip Time/Return Trip Time/Real Time Tool), and/or Historical GPS/Mobile Locate Information, which shows GPS location (longitude and latitude) and cell-site and sector of the device in relationship to the network when connected to the network for the above referenced number. The responsive data shall also include all numbers listed above, collected from Verizon applications and/or URLs and all numbers that communicate with the target number related to the Customer Proprietary Network Information (CPNI), to include all delivered and undelivered inbound and outbound calls, text messages, quantity, type, destination, location and amount of use of Verizon telecommunications and interconnected voice over internet protocol (VoIP) services and related billing information. All responsive records associated with websites/URLs/domains (top level domain and subdomain of the URL) visited, to include a list of all Verizon applications used on the mobile device, and any records related to information about Verizon Fios services. If no records are located associated with Verizon Selects, Verizon Custom Experience and Custom Experience Plus, or Verizon Fios, provide detailed information associated with the subscriber opting out of said services, to include opt-out date, time, and associated opt-out IP address.
7. Carrier Key related to call detail, text messages, data connections, IP logs, IP Sessions, web site and/or application connections, and cell site information. The "carrier key" is a legend related to the types of responsive data received from the service provider, which contain the record column header labels and their definitions of what each cell value represents in the spreadsheet. Carrier keys are required to decipher what the values represent in these cells, as many of these values may be presented in codes only known to the service provider.
8. Content stored in remote storage or 'cloud accounts' associated with the target device including, but not limited to, contacts, call logs, SMS and MMS messages with associated content including audio, video, and image files, digital images and videos, and files or documents.
9. List of all cell-sites as of **5/11/2026** for all state(s) in which the above records used cell locations. Cell site lists to include switch, cell-site number, name, physical address, longitude and latitude, all sectors associated with each cell-site, sector beam width, tower height, and azimuth of each sector associated with each cell-site. If multiple technologies (CDMA, UMTS, GSM, LTE etc.) are referenced in the records all appropriate corresponding cell site lists will also be preserved.
10. Subscriber information for the following mobile number **567-284-3611** including:
 1. All Subscriber information to include name, tax identification number (social security number or employer identification number).

2. Physical address, mailing addresses, residential addresses, business addresses, e-mail addresses and any other address information.
3. Credit information obtained or used by the company to grant account status.
4. All numbers associated with account.
5. Billing records.
6. All payments to include method, date and time of payments, and location (store name, address, and phone number of location where payment(s) were made).
7. All Authorized users on the associated account.
8. Activation date and termination date of each device associated with the account and the above listed number.
9. Types of service subscriber utilized (e.g. A-list, AT&T Messages, friends and family).
10. Make, model, serial number, IMEI, ESN, MEID, and MAC address associated with the above listed number, including any and all equipment or SIM card changes for the life of the account.
11. All customer service and account notes.
12. Any and all number and/or account number changes prior to and after the cell number was activated.
13. Any other records and other evidence relating to phone number **567-284-3611**.
14. If any outgoing calls were made to 9-1-1, provide the call details to include date and time, duration, and cell-site and sector information, by querying any other tools (e.g. Sable, ANI/ALI, etc...) necessary to identify the outgoing call(s), whether or not it was the specific carrier network equipment associated with this search warrant, or the 9-1-1 call was carried by a different service provider based on the best signal available from another service provider at the time of the 9-1-1 call.

Such records and other evidence include, without limitation, correspondence and other records of contact by any person or entity about the above-referenced accounts, the content and connection logs associated with or relating to postings, communications and any other activities to or through the above referenced phone number, whether such records or other evidence are in electronic or other form.

Please feel free to contact me at 330-503-3094, or by electronic email at austin.fedchock@ohioago.gov should you have any other questions regarding my request.

Thank you for your attention to preserving the requested documents.

Regards,

Austin Fedchock
