Bureau of Criminal Investigation
Investigative Report**

2026-0745

Officer Involved Critical Incident - 10810 Brookpark Rd.,
Brooklyn, OH 44130, Cuyahoga County (L)

Investigative Activity: Video Review; Amped Replay Used; Review of [REDACTED]
[REDACTED] In-Car Camera Video

Involves: Ricardo Davis (S), [REDACTED] (S), Parma
Police Department (O), BCI (O)

Activity Date: 04/10/2026

Activity Location: BCI - Richfield

Authoring Agent: SAS Charles Moran #67

Narrative:

On Friday, April 10, 2026, Ohio Bureau of Criminal Investigation (BCI) Special Agent Supervisor (SAS) Chuck Moran (Moran) used Amped Replay to generate two video derivatives from Parma Police Department (PPD) [REDACTED] in-car camera (ICC) video. This was done in an attempt to enlarge the area where the involved subject, Ricardo Davis (Ricardo), exited his vehicle on Brookpark Road while holding a semi-auto pistol in his right hand immediately prior to an officer involved critical incident (OICI) occurring.

SAS Moran located and downloaded [REDACTED] ICC video in the 2026-0745 Axon Justice case file > Reference Item E - Parma PD Dash Cam folder > Dash Cam Involved [REDACTED] subfolder.

The video file was labeled:

Axon_Fleet_3_Front_Camera_Video_2026-02-24_1340¹

The downloaded video was placed in a working copy folder on his BCI-issued laptop. SAS Moran brought the video into Amped Replay for review and analysis. The video consisted of 548933 frames and was 05:04:57.766 (five hours, four minutes, 57 seconds, 766 milliseconds) long. Amped Replay showed the video file frames-per-second (FPS) was 30.00.

Officer Involved Critical Incident - 10810 Brookpark Rd.,
Brooklyn, OH 44130, Cuyahoga County (L)

RANGE SELECTION

SAS Moran used a range selection starting at frame 3035 and ending at frame 3835. These frames were the best visual frames showing [REDACTED] arriving at the incident scene, Ricardo moving inside his vehicle, Ricardo exiting his vehicle with a semi-auto pistol in his right hand, walking toward officers, the subsequent OICI, and an officer radioing for the Parma Fire Department (EMS) to respond.

ANNOTATE, MAGNIFY

SAS Moran used Annotate > Video Annotations > Magnify tool to enlarge an area of interest starting at frame 3113 and ending at frame 3407. This area of interest was near Ricardo's vehicle and was then used to track Ricardo's movement when he exited his vehicle. The enlarged/magnified area was moved to a portion of the screen with no activity and was enlarged/magnified x3.0. Bicubic interpolation (generally best looking, illustrative, and best quality) was used for the enlarged/magnified area.

It was clear that Ricardo had a semi-auto pistol in his right hand as he walked toward the officers immediately prior to and during the OICI.

FULL SPEED, HALF SPEED ("DERIVATIVES")

SAS Moran exported the processed video as an .mp4 file at full speed (30 FPS).

SAS Moran adjusted the FPS to half speed (15 FPS) and exported the process video as an .mp4 file.

ADDITIONAL FACTORS TO CONSIDER WHEN EVALUATING DIGITAL MULTIMEDIA EVIDENCE (DME)

Based upon SAS Moran's training and experience, the following factors should be considered when evaluating the available video evidence:

- Video recordings are for storage and review.
- Video recordings capture light and create a digital representation of reality (two-dimensional video compared to three-dimensional reality).

This document is the property of the Ohio Bureau of Criminal Investigation and is confidential in nature. Neither the document nor its contents are to be disseminated outside your agency except as provided by law - a statute, an administrative rule, or any rule of procedure.

2026-0745

Officer Involved Critical Incident - 10810 Brookpark Rd.,
Brooklyn, OH 44130, Cuyahoga County (L)

- The speed of this incident is remarkable. The speed and complexity of rapidly evolving situation(s) that occur during use-of-force encounters are difficult concepts to comprehend by only watching the video.
- Video and audio recording devices record more information about a particular scene or incident than the person(s) involved in the event can process during the critical incident.
- Video and audio recording devices rarely record an event from the same perspective of the officer(s) or subject(s) involved. It captures the action but not the perception, decision-making, focus nor intent of the officer(s).
- Video recordings often miss tactile cues or other actions of a subject. Video and audio recording devices record within the video and sound capabilities available, and they record objectively.
- Video and audio recordings lack the history, perspective and interest of the people involved.
- The movements, positions, angles, obstacles, lighting, and distance from the incident are also factors that need serious consideration.
- Video and audio recordings are only components of an investigation and should not be the only evidence relied upon.
- All available evidence, statements and other information must be evaluated alongside the video recordings available.

SAS Moran uploaded the Amped Replay project file and derivatives to the Axon Justice case file as part of Reference Item E.

The Amped Replay reports were placed in the Matrix case file and are attached to this report.
