

Ohio Attorney General's Office
Bureau of Criminal Investigation
Investigative Report

2022-1139
Officer Involved Critical Incident – 947 SR-28 Business, Milford,
Ohio (L)

Investigative Activity: Case Opening, Initial Briefing
Involves: Camille Artice Weems (S)
Date of Activity: 05/20/2022
Activity Location: – 947 Business 28 Milford, Milford, OH 45150, Clermont County
Author: SA Steven Seitzman

Narrative:

On May 20, 2022, at 1717 hours, the Ohio Bureau of Criminal Investigation (BCI) was requested by the Miami Township Police Department (MTPD) in Clermont County to investigate an Officer-Involved Critical Incident that occurred on the same date in the parking lot of 947 Business 28, Milford, Ohio.

On May 20, 2022, at 1627 hours, MTPD officers were dispatched to conduct a welfare check on Camille Artice Weems (Ms. Weems) at her residence located at 947 Business 28, Apt. 16. The welfare check was requested by a neighbor, Casey Greenberg, after Ms. Weems called him stating that someone was coming to kill her and that she needed to get out of the city/state. Ms. Weems was uncooperative with the responding officers, so the officers eventually left. At approximately 1700 hours, neighbors contacted MTPD after Ms. Weems was seen in the parking lot shirtless and armed with a pistol. Ms. Weems fired the gun several times prior to police arrival.

MTPD Officers Robert Bunnell, [REDACTED] Ann Morgan, William Hickey, and Sergeant Daniel Tobias responded. The officers located Ms. Weems in the parking lot, still shirtless and armed with a pistol. Ms. Weems crouched down, pointed the pistol in the direction of the officers, and fired it at them. Officer [REDACTED] returned fire with an AR-15-style rifle. Officer [REDACTED] struck Ms. Weems, causing her to fall to the ground. Officers approached Ms. Weems and rendered medical aid to her. Paramedics responded to transport Ms. Weems, but she ultimately succumbed to her wounds. She was removed from the scene to a church, where a coroner's office representative responded.

BCI Special Agent Doug Eveslage (SA Eveslage) was the first BCI agent to arrive. He was briefed by MTPD Lieutenant Greg Jenkins and Sergeant Josh Bail. SA Eveslage was also informed that there were three or four civilian witnesses who were transported to the Miami Township Police Department.

This document is the property of the Ohio Bureau of Criminal Investigation and is confidential in nature. Neither the document nor its contents are to be disseminated outside your agency except as provided by law – a statute, an administrative rule, or any rule of procedure.

BCI Special Investigations Unit Special Agent Supervisor Will Jones, Special Agent Steven Seitzman (lead agent), Special Agent Dave Hornyak, Special Agent Kenneth Smith, and SA Eveslage responded to conduct the investigation. BCI Crime Scene Unit Special Agent Aja Chung responded to process two scenes, as some of the rounds presumably fired by Ms. Weems, hit a nearby business across the street.

SA Seitzman received a written request for assistance from MTPD Chief Mike Mills. SA Seitzman also received from Sgt. Bail prior incident reports involving Ms. Weems, MTPD policies and procedures relative to the use of force, the crime scene log, and dispatch log.

Complainant stated that she believes someone drugged her and placed a tracker in her body. She stated that they are following her and listening to everything. Complainant stated that this has been going on for years. She has filed several reports in Hamilton County where she used to live. She advised she is a recovering alcoholic and has been sober for years. She has been in the hospital several times for psychological holds but she is not crazy.

The reportee, Camille Weems, stated she wished to add information to a previous report (22-3526).

Camille advised that in March 2021, she moved into a residence at 5910 Clephane Ave Cincinnati, OH 45227, a house owned by Sherri Marshall (5921 Clephane Ave). She advised that there were cameras in the home that were watching and recording her.

Camille stated that in July 2021, she went on one date with Eric Landrum (OLN [REDACTED] 3046 Gilbert Ave Cincinnati, OH 45206). (Camille had a picture of Eric's driver's license on her cell phone) She stated she drank heavily that night and Eric drugged her and implanted a tracking device in her, but never reported it. When asked why she never reported this, she stated because she just found this out a few days ago and there is now constant communication in her head between them and her. She called this "gang stalking". She stated they can now also control her body and provided an example of last night when the tracking device gave her heart palpitations.

Camille advised she has made several reports in Hamilton County in the past and has spent some time in the hospital for psychological evaluations. When asked how sure she was that there is a tracking device in her (due to me never having knowledge of this actually occurring) she stated she was positive because Eric was in the Navy for years and has the technology to do it. Camille also advised that she is in fear for her life because, through the tracking device, they are telling her they are on their way to kill her.

Camille advised that she is a recovering alcoholic and no one in her family believes her. When beginning a conversation about her possibly speaking with CIT, she stopped me stating she already has a therapist.

Camille advised she moved to her current location 2/5/22 and since then, an unknown subject has damaged her vehicle. She stated she is going to try to get her vehicle to a machanic to find out what is wrong with her car and to get proof that someone damaged it. She just wished for this to be documented.

I will make contact with CIT and have them reach out to Camille.

This call was transferred from Hamilton County. Ms. Weems was transported to Bethesda North and called advising she believes her apartment door was left unlocked and her neighbor was inside her apartment. She is known to have mental health issues. The apartment was checked and the door was locked. I was unable to make contact with the complainant by phone. Referral already submitted to CIT for this individual.

911 hangup at this location. On call back, female answered and stated "This is not how this works" and hung up again. I arrived on scene and made contact with Ms. Weems. She seemed to be under the influence of alcohol or drugs. Ms. Weems requested EMS to respond because she is diabetic. I requested EMS to the scene. Ms. Weems began to fall asleep before EMS arrived and I attempted to keep her awake until EMS was on scene. EMS arrived a short time later and issued NARCAN believing she have taken some type of opiate causing her drowsiness. A bottle of prescription Quetiapine was located on the living room coffee table which had been filled on 4/24/22 with 59 pills with the recommended dosage of 2 per day. The bottle was completely empty. Ms. Weems was unable to respond when questioned if she had ingested a majority of the medicine recently. Ms. Weems was transported by EMS to the hospital.

I searched the apartment for a key to the front door, but was unable to locate one. I contacted the owner of the apartments, Mr. Gottula, and informed him of the situation and asked if he would be able to secure the door for Ms. Weems. He said he would have the manager take care of it.

Exhibit 6

DIRECTIVE 4.1 USE OF FORCE

| | |
|-------------------------------------|---|
| Issue Date: 06/25/2021 | By Order of Chief of Police |
| Rescinds: (Issue 05/06/2021) | CALEA Standards Referenced: 4.1.1; 4.1.2; 4.1.3; 4.1.4; 4.1.5; 4.1.6 & 4.1.7 |
| Pages: 10 | Ohio Standard 1 |

This directive consists of the following sections:

- 4.1.1 Use of Reasonable Force**
- 4.1.2 Use of Deadly Force**
- 4.1.3 Warning Shots**
- 4.1.4 Use of Authorized Less Lethal Weapons**
- 4.1.5 Rendering Medical Aid Following Police Actions**
- 4.1.6 Vascular Neck Restrictions**
- 4.1.7 Choke Holds**

DEFINITIONS:

Active Aggression - means that the subject takes physical action toward any person, by any means.

Aggravated Active Aggression - means that the subjects' actions may cause serious physical harm to anyone or the subject is using deadly force against any person.

Deadly Force - means any force that carries a substantial risk that it will proximately result in the death of any person. [ORC 2901.01A]

De-Escalation – taking action or communicating verbally or non-verbally during a potential force encounter in an attempt to stabilize the situation and reduce the immediacy of the threat so that more time, options, and resources can be called upon to resolve the situation without the use of force or with a reduction in the force necessary.

Defensive Resistance - means that the subjects' actions or verbalization offer active resistance to the officer, by attempting to escape the officer's control by any means.

Force - means any violence, compulsion or constraint physically exerted by any means upon or against a person or thing. [ORC 2901.01A]

Immediate - means near to or related to present time.

Less Lethal Force - means any force that is intended to incapacitate or stop a person without causing death.

Objectively Reasonable - The amount of force that would be used by other reasonable and well-trained officers when faced with the circumstances that the officer using force was presented with at the time of the incident.

Passive Resistance - means that the subjects' actions offer no active opposition or resistance to the officer's control.

Psychological Intimidation / Totality of Circumstances - means that the size of, appearance of, gestures or any actions exhibited by a subject, or known indicators at the time of the incident that may be perceived by the officer as a threat.

Physical Harm to Persons - means any injury, illness or other physiological impairment, regardless of its gravity or duration. [ORC 2901.01A]

Physical Harm to Property - means any tangible or intangible damage to property that, in any degree, results in loss to its value or interferes with its use or enjoyment. Physical harm to property does not include wear and tear occasioned by normal use. [ORC 2901.01A]

Reasonable Belief - means the facts or circumstances the officer knows, or should know, is such as to cause an ordinary and prudent person to act or think in a similar way under similar circumstances.

Reasonable Force – that force which is necessary to accomplish lawful objective.

Risk - means a significant possibility, as contrasted with a remote possibility, that a certain result may occur or that certain circumstances may exist. [ORC 2901.01A]

Secondary Firearm - means a personally owned firearm that an officer may carry as a back up firearm while on-duty or as an off-duty firearm, subject to the provisions of this directive.

Serious Physical Harm to Persons - means any of the following:

- Any mental illness or condition of such gravity as would normally require hospitalization or prolonged psychiatric treatment;
- Any physical harm that carries a substantial risk of death;
- Any physical harm that involves some permanent incapacity, whether partial or total, or that involves some temporary, substantial incapacity;
- Any physical harm that involves some permanent disfigurement or that involves some temporary, serious disfigurement;

- Any physical harm that involves acute pain of such duration as to result in substantial suffering or that involves any degree of prolonged or intractable pain. [ORC 2901.01A]

Serious Physical Harm to Property - means any physical harm to property that does either of the following:

- Results in substantial loss to the value of the property or requires a substantial amount of time, effort, or money to repair or replace;
- Temporarily prevents the use or enjoyment of the property or substantially interferes with its use or enjoyment for an extended period of time. [ORC 2901.01A]

Substantial Risk - means a strong possibility, as contrasted with a remote or significant possibility, that a certain result may occur or that certain circumstances may exist. [ORC 2901.01A]

Verbal Non-Compliance - means that the subject has verbalized the intent not to comply with the officer's directions.

Verbal Direction - means the verbalization by an officer directing a person to perform in some manner.

POLICY AND PROCEDURE:

4.1.1 Use of Reasonable Force

Employees may only use the force which is reasonably necessary to affect lawful objectives including: affecting a lawful arrest or overcoming resistance to a lawful arrest, preventing the escape of an offender, or protecting or defending others or themselves from physical harm. Officers will discontinue using force once the offender stops resisting or is in custody of officer(s).

The type and degree of force or weapons used will be based on the totality of the circumstances and a reasonable belief of the need for such use of force in order to accomplish a lawful objective.

Use of Force Guidelines

When officers are faced with confrontation, de-escalation tactics and techniques should be utilized whenever possible. Calling for back up should be a priority.

Officers may display less lethal weapons whenever the officer has reasonable belief that such display may diminish aggressive behavior by another.

Officers may display a firearm whenever the officer has a reasonable belief there may exist immediate danger of serious physical harm to any person or whenever the officer has a reasonable suspicion that a person may be armed with a deadly weapon or under any circumstance where an officer is authorized to use deadly force.

Disengagement from confrontation shall be an option and officers are authorized to disengage from a confrontational situation and retreat to a position of safety when in the officers' opinion such disengagement may diminish the threat of immediate harm to the offender, the officer or any other person.

The following use of force guidelines are to provide direction for officers in their response to resistance or force which is encountered while in the performance of their sworn duties and effecting lawful objectives.

An officer shall not be required to progress through lower levels of response action in responding to resistance or force.

The use of vascular neck restrictions is prohibited unless an officer is in a deadly use of force scenario and all other reasonable means of response have been exhausted and it is necessary for the defense of the officers' life or the life of another.

Resistance/Force Encountered & Officer Response, Use of Force Continuum

Officers should attempt to achieve control through verbal commands. However, officers need not apply force in gradually increasing steps to justify physical control or even deadly force. Instead, officers need to respond with all the force reasonably necessary for the circumstances in each specific situation. Members may use only that level of force necessary to gain control when compliance cannot be achieved through verbal commands and there is:

- Resistance to the officer's performance of a lawful duty;
- A threat to the safety for the officers or another person; or
- A reasonable belief that there are no alternatives, or they would clearly be ineffective.

Each use of force situation is unique, and this continuum is intended only as an illustration of the various force options that are available to an officer facing a given level of subject resistance.

This Use of Force Continuum is not intended to preclude a force option when that option would not exceed the amount of force reasonably necessary to affect a lawful arrest (*Graham v. Connor*, 490 U.S. 386 (1989)). The 'Graham Factors' should be considered during any force situation.

- The severity of the crime at issue;

- Whether the suspect poses an immediate threat to the safety of the officers or others, and;
- Whether the suspect is actively resisting arrest or attempting to evade arrest by flight.

Good judgment and the circumstances of each situation will dictate the level on the continuum of force at which an officer will start. Depending on the circumstances, officers may find it necessary to escalate and de-escalate the use of force by progressing up and down the force continuum. It is not the intent of this continuum to require officers to try each of the options before moving to the next if the level of force used is reasonable under the circumstances.

Disengagement, area containment, surveillance, waiting out a suspect, summoning reinforcements, or calling in specialized units may be an appropriate response to a situation.

Force options may be used simultaneously, for instance, combining verbal commands with use of chemical irritant. The officer must choose the necessary response based on law, departmental policy, training, and experience. The officer must exercise proper use of force decision making, which means the use of reasonable force, including proper tactics, and de-escalation techniques.

Following any use of force resulting in a citizen's injury, officers will ensure appropriate first aid is rendered immediately once the incident scene is stabilized.

Passive Resistance

- Verbal Direction

- Chemical Agent
- BolaWrap 100

Aggravated Active Aggression

- Lethal Force
- Firearm
- BolaWrap 100
- CEW
- Tactical Baton

4.1.2 Use of Deadly Force

The preservation of human life is of the highest value in the State of Ohio. Therefore, employees must have an objectively reasonable belief deadly force is necessary to protect life before the use of deadly force. Deadly force may be used only under the following circumstances:

- To defend themselves from serious physical injury or death; or,
- To defend another person from serious physical injury or death; or,
- In accordance with US and Ohio Supreme Court decisions, specifically, *Tennessee v. Garner* and *Graham v. Connor*.

An officer may only use deadly force when the officer reasonably believes that the action is in defense of human life, including the officers' own life, or in the defense of any person in immediate danger of serious physical harm.

Officers will not discharge a firearm at or from a moving vehicle, unless all other reasonable means have been exhausted and it is necessary for the defense of the officers' life, the life of another, or the officer has reasonable cause to believe that the suspect poses a significant threat of death or serious physical harm to the officer or another.

When reasonable, appropriate, and not prevented by physical environment, distance, or other situational circumstances, officers should provide warning prior to the use of deadly force.

Annually, definitions of conditional terms or similar terms shall be reviewed during in-service training.

4.1.3 Warning Shots

Officers are never justified in discharging a firearm to fire a warning shot.

4.1.4 Use of Authorized Less Lethal Weapons

Officers may only use less lethal weapons within the scope of their employment and authority to use such weapons and then only with the degree of force necessary to affect the officers' lawful objective.

Officers may only carry or use an approved less lethal weapon after documented proficiency training.

Officers are prohibited from carrying or using any less lethal weapon other than those approved by the Chief of Police.

Expandable Baton

The current approved and issued expandable baton is an expandable baton of metal construction. The department will issue each officer an expandable baton. Uniformed officers shall carry on their duty belt the issued expandable baton in the issued baton holder.

Chemical Agent

The department will issue each officer an approved chemical agent spray for use. Uniformed officers shall carry on their duty belt the issued chemical agent container within the department issued chemical agent holder.

If possible, a verbal warning should be issued prior to the use of the chemical agent unless exigent circumstances exist that would make it imprudent to do so.

When spraying chemical agent, target a subject's face and upper torso. It is recommended to deliver the chemical agent in one-half to one second bursts and if unable to control the subject resort to other means of force.

Absent exigent circumstances, officers should remove the subject from the contaminated area and face them into the wind. EMS will be called to the scene to assist with decontamination and to assess any health concerns of the subject.

Larger quantities of chemical agents may be stored in each patrol supervisor's vehicle for use in large disturbances.

Conducted Electrical Weapon (CEW)

The department issues approved CEWs for use in the field. Only properly functioning and charged CEWs are to be carried. Uniformed officers working road patrol will carry a CEW.

The CEW must be worn on the non-dominant side in either a non-dominant draw or cross draw position.

When deploying a CEW against a fleeing suspect, the officer should consider, along with the Graham Factors in the Use of Force Guidelines:

- Have proper instructions to halt been issued?
- The landing location(s): asphalt, railroad tracks, grass, stairwells or bodies of water, etc.

Officers must be trained concerning:

- The ability of an electrical charge to act as an ignition for combustible materials.
- The preferred targeting is the center mass of the subject's back; however, it is recognized that it is not always possible to get behind the subject. Where back – targeting is not possible, frontal targeting should be lower center mass, and intentional deployments to the chest shall be avoided where possible. Officers shall make all reasonable efforts to avoid striking persons in the head, neck, eyes or genitals.
- The effectiveness of the CEW when deployed on persons wearing heavy or layered clothing.
- Use of the CEW should be combined with physical restraint techniques to minimize the total duration of the struggle and CEW use. Additional officers on the scene of a CEW deployment should attempt to restrain and handcuff a subject during an active CEW cycle. Officers should transition to a different force option if multiple CEW deployments fail to gain compliance or continued CEW applications are not making enough progress toward gaining compliance.
- When possible, avoid prolonged, extended, uninterrupted discharges or extensive multiple discharges. Minimizing the successive number of CEW discharges against an individual when possible but being aware when back-up officers are unavailable, that multiple applications may be necessary to gain or maintain control of an active aggressive individual.

- No more than one officer deploying a CEW against a single individual at the same time.
- The CEW is not to be used as a punitive measure.
- It is recommended to give a verbal warning prior to each discharge to warn other officers that a deployment is about to occur and to give the subject an opportunity to comply with your orders.
- Discharging a CEW at animals. The CEW is an effective tool for stopping the aggressive behavior of wild or potentially dangerous animals. The CEW is especially effective for vicious and /or dangerous dogs. Officers using a CEW on an animal may need to adjust their aim to ensure contact is made with both probes.

Officers will not use a CEW on a subject(s) who are operating a motor vehicle.

Officers should avoid using the CEW on unarmed persons who reasonably appear to be, or are known to be, young children, elderly persons, medically infirm, pregnant or users of a cardiac pacemaker. Officers are not prohibited from using the CEW on such persons, but use is limited to those exceptional circumstances where the potential benefit of using the CEW (i.e. injury reduction) reasonably outweighs the risks and concerns.

Officers carrying a CEW shall conduct a function test at the beginning of their shift. If a CEW other than the officer's assigned unit is being used, the officer's supervisor will note the CEW serial number tested by the carrying officer's name on the shift activity report.

BolaWrap 100

The BolaWrap 100 device is intended to immobilize and control resistive/non-compliant persons. The device should only be used when its operator can safely approach the subject within the operational range of the device. Officers should be aware that the device may not achieve the intended results and be prepared with other options. An officer using the BolaWrap 100 device should have a second officer present to serve as cover with the appropriate force option. Supervisors should respond to calls when they reasonably believe there is a likelihood the BolaWrap 100 device may be used by an officer.

Personnel who are authorized to carry the BolaWrap 100 device shall be permitted to do so only after successfully completing the initial department-approved training from a certified instructor and demonstrating proficiency to the instructor. Proficiency training for personnel who are authorized to use and have been issued a BolaWrap 100 device should occur annually by a certified instructor. Officers who do not carry a BolaWrap 100 devices should receive training that is sufficient to familiarize them with the device and with working with officers who use the device.

Only an approved BolaWrap 100 device, that has been issued by the Department, shall be utilized by officers. Officers who have successfully completed department-approved

training may be issued and carry the BolaWrap 100 device. The BolaWrap 100 devices will be carried by those trained in their patrol vehicles or on their person and readily available for deployment. Officers should not hold any other weapon, firearm, or control device and the BolaWrap 100 device at the same time.

A verbal warning of the intended use of the “less lethal” device should precede its application, if practical. The aiming laser should never be intentionally directed into the eyes of another as it may permanently impair his/her vision. The fact that a verbal or other warning was given or the reasons it was not given shall be documented by the officer deploying the BolaWrap 100 device in the related report.

The BolaWrap 100 device may be used in any of the following circumstances, when circumstances, perceived by the officer at the time, indicate that such application is reasonably necessary to control a person:

- A subject needing to be detained or controlled indicates through words or action they will resist arrest or will not voluntarily comply with lawful orders.
- The subject has demonstrated, by words or action, an intention to be violent or to physically resist, and reasonably appears to present the potential to harm officers, him/herself or others.

Mere flight from a pursuing officer, without other known circumstances or factors, is not good cause for the use of the BolaWrap 100 device to apprehend an individual.

The use of the BolaWrap™ 100 device on certain individuals should generally be avoided unless the totality of the circumstances indicates that other available options reasonably appear ineffective or would present a greater danger to the officer, the subject or others, and the officer reasonably believes that the need to control the individual outweighs the risk of using the device. This includes:

- Individuals in danger of falling or becoming entangled in machinery or heavy equipment, which could result in death or serious bodily injury.
- Individuals near any body of water that may present a drowning risk.
- Individuals whose position or activity may result in collateral injury (e.g., falls from height, operating vehicles).

The BolaWrap 100 device shall not be used to psychologically torment, elicit statements or to punish any individual.

Reasonable efforts should be made to target lower extremities or lower arms. The head, neck, chest/upper arms, and groin should be avoided if possible. If the dynamics of a situation or officer safety do not permit the officer to limit the application of the BolaWrap 100 device to a precise target area, officers should monitor the condition of the subject if it strikes the head, neck, or groin until the subject is examined by paramedics or other medical personnel.

Following the use of the BolaWrap 100 device:

- Personnel shall request a supervisor, if not already, to the scene.
- A medical evaluation will be completed on anyone for whom the BolaWrap was deployed.
- The medics shall determine whether transporting the person to a medical facility is necessary to remove the pellets/barbs from a sensitive area.
- If the supervisor determines that removal of the Kevlar cord is appropriate at the scene, the supervisor or officer shall remove the Kevlar cord using the department issued BolaWrap 100 cutter.
- Once removed the barbs and cord shall be placed in a sharps container/tube and sealed with biohazard tape.
- The plastic tube should be placed into an evidence box.
- Once the box is sealed and labeled it can be submitted into evidence.

Absent extenuating circumstances, only officers trained in the removal of probes or appropriate medical personnel should remove BolaWrap pellets/barbs from a person's body. Only medical personnel should remove probes from sensitive areas such as the groin or female breasts. The transporting officer shall inform any person providing medical care or receiving custody that the individual has been subjected to the application of the BolaWrap 100 device.

Officers shall document all BolaWrap 100 device discharges in the related use of force report and BolaWrap Evaluation form.

Emergency Situations

If an officer is confronted with an emergency in which the use of deadly force is justified, the officer may use anything at his/her disposal to avoid death or serious physical harm.

4.1.5 Rendering Medical Aid Following Police Actions

Anytime an officer uses force against any person, the officer shall as soon as appropriate and when they are able to do so, determine if an injury has occurred or the person needs medical assistance. If the officer determines that there is a need for medical aid or if the person upon whom force was used requests medical aid, the officer shall summon medical aid via contact of Clermont County Communication Center. Clermont County Communication Center will request Miami Township Fire/EMS to respond to officer's location for medical aid.

Officers shall render any immediate medical assistance that they are trained and able to perform.

Officers using a CEW may remove darts embedded in a subject's skin using the appropriate technique provided the darts are not embedded in soft body tissue, i.e.

genitals, breast tissue, or any that are above the collar bone. If the darts are embedded in the soft body tissue a paramedic or EMT will be requested for removal.

Used CEW cartridges and darts are considered a biohazard. All necessary precautions such as gloves will be used when removing and or collecting the darts. The used cartridge and darts will be placed in a biohazard receptacle.

All persons who have been the subject of a Conducted Electrical Weapon deployment shall be monitored for a period with a focus on symptoms of physical distress. Any person, who appears to be having any form of physical distress following the deployment of a CEW, shall be transported to a medical facility for a medical examination. It should be noted that studies indicate that persons who suffer from excited delirium may not be immediately impacted, and the onset of physical difficulty may occur after the police control event.

Mandatory Medical Clearance at the Hospital is required:

- If the person has been struck in a sensitive area: eyes, head, genitals, female breasts.
- When the probes have penetrated the skin and Officers/EMS cannot safely remove darts in accordance with this policy.
- For persons who do not appear to have fully recovered after a short period of time.
- For persons who fall into one of the vulnerable classes such as juveniles, pregnant women, persons who officers become aware have a pre-existing medical condition that increases danger and the elderly.

4.1.6 Vascular Neck Restrictions

The use of vascular neck restrictions is prohibited unless an officer is in a deadly use of force scenario and all other reasonable means of response have been exhausted and it is necessary for the defense of the officers' life or the life of another.

4.1.7 Choke Holds

The use of choke holds or any technique restricting the intake of oxygen for the purpose of gaining control of a subject is prohibited unless an officer is in a deadly use of force scenario and all other reasonable means of response have been exhausted and it is necessary for the defense of the officers' life or the life of another.

Exhibit 7

DIRECTIVE 4.2 USE OF FORCE REPORTING AND REVIEW

| | |
|-------------------------------------|---|
| Issue Date: 09/01/2020 | By Order of Chief of Police |
| Rescinds: (Issue 03/23/2020) | CALEA Standards Referenced: 4.2.1; 4.2.2; 4.2.3; 4.2.4 & 4.2.5 |
| Pages: 6 | Ohio Standard 1 |

This directive consists of the following sections:

- 4.2.1 Reporting Uses of Force**
- 4.2.2 Written Use of Force Reports and Administrative Review**
- 4.2.3 Removal from Line of Duty Assignment**
- 4.2.4 Analyze Reports**
- 4.2.5 Assault on Sworn Officer Analysis**

POLICY AND PROCEDURE:

4.2.1 Reporting Uses of Force

A written Use of Force report is submitted whenever an employee:

- Discharges a firearm, for other than training or recreational purposes;
- Takes an action that results in, or is alleged to have resulted in, injury or death to another person;
- Applies force using lethal or less lethal weapons, or;
- Applies weaponless physical force.

All officers have a duty to ensure that all use of force and any citizen allegation of excessive force are reported to the Police Department. Whenever an officer uses deadly force, force, hard hand tactics, chemical irritant, a CEW, a BolaWrap 100; or confronts resistance that results in an injury or the complaint of injury to a citizen, or of excessive force, the officer will immediately notify a supervisor. The supervisor or command officer investigating the incident must be of at least the next higher rank than the officer(s) who used the force unless an exception is approved by the Chief of Police.

The primary officer will complete and file a written Use of Force Report anytime they use physical, weaponless, less lethal or lethal weapons against another person, whether injury or death results from such use of force, regardless if the force was intentional, unintentional or accidental. Support officers involved shall complete a thorough statement of facts to be included in the report. Prior

to the filing of the written Use of Force report, the officer involved or alleged to have been involved will immediately contact the shift supervisor and give an oral report concerning the incident.

If the officer involved is unable to complete the proper reports, then the supervisor will file the appropriate reports. Any report that is filed by a supervisor for an officer will be supplemented with a written report filed by the officer involved, as soon as practical after the incident.

4.2.2 Written Use of Force Reports and Administrative Review

The department will investigate all incidents where an officer uses force or is alleged to have used force against any person. The investigation will conclude with a review by the Chief of Police of the incident to determine if the action by department personnel were within guidelines set forth in the policies of the department.

The shift supervisor, will as required, make the appropriate notifications and then investigate the incident. The shift supervisor will complete the Supervisor's Use of Force report. The shift supervisor will compile all appropriate information from the incident and forward the report along with the officers' use of force report, photos, recordings, statements, evidence, etc.... to the Patrol Division Supervisor.

The Patrol Division Supervisor will review the report for accuracy, completeness and reasonableness. The Patrol Division Supervisor will make a recommendation to the Chief of Police of whether the Use of Force was within policy, out of policy or accidental.

The report will be submitted to the Chief of Police for review and disposition of the investigation. Disposition of the case will conclude with a finding of within policy, out of policy or accidental.

4.2.3 Removal from Line of Duty Assignment

When death or serious physical injury has resulted from the use of force or any other action by an employee (auto accident or other means), the employee as soon as practical, will be removed from line duty assignment or they may be placed on paid administrative leave until completion of an administrative review of the incident. This review will be completed as soon as practical following the incident.

When an employee has or has been alleged to have been involved in an incident that has resulted in the death or serious injury of a person, the employee may be required to undergo a debriefing with a psychologist. The department will afford the services of a professional psychologist and/or psychiatrist to an employee who has or has been alleged to have used force or any other action that resulted in the death of a person. When an employee elects to use this service, it shall be protected by the physician-patient relationship.

The Chief of Police may also grant relief from duty when an employee has been involved in a critical incident. Such incident is defined as an occurrence that brings an overwhelming emotional response from the employee witnessing it and the emotional effect goes beyond the employees coping abilities.

4.2.4 Analyze Reports

Annually, the agency conducts an analysis of its use of force activities, policies and practices that shall identify:

- Date and time of incidents;
- Type of encounters resulting in use of force;
- Trends or patterns related to race, age and gender of subjects involved;
- Trends or patterns resulting in injury to any person including employees;
- Impact of findings on policies, practices, equipment and training.
- All assaults on sworn officers.

The review will be conducted by the Patrol Division Supervisor and will include reviewing each use of force report required by this directive and determining over all if department procedures and practices should be changed due to legal decisions, requirements of the department or in the interest of the community served. The Patrol Division Supervisor shall upon review, determine if additional or alternative training is necessary for department personnel dealing with any aspect of the application or reporting of the use of force. This analysis and all revisions/recommendations shall be submitted to the Chief of Police.

4.2.5 Assault on Sworn Officer Analysis

All assaults on officers are reported and reviewed by the Patrol Division Supervisor. An annual review is conducted by the Patrol Division Supervisor or their designee to enhance officer safety, revise policy and address training needs for Police Chief's review and approval. The annual review will be included in the annual Use of Force analysis report.

Exhibit 8

DIRECTIVE 4.3 WEAPONS AND TRAINING

| | |
|-------------------------------------|---|
| Issue Date: 03/31/2022 | By Order of Chief of Police |
| Rescinds: (Issue 06/16/2021) | CALEA Standards Referenced: 4.3.1; 4.3.2; 4.3.3; 4.3.4 & 4.3.5 |
| Pages: 10 | Ohio Standard 1 |

This directive consists of the following sections:

- 4.3.1 **Authorization: Weapons and Ammunition**
- 4.3.2 **Demonstrating Proficiency with Weapons**
- 4.3.3 **Annual/Biennial Proficiency Training**
- 4.3.4 **Prerequisite to Carrying Lethal/Less Lethal Weapons**
- 4.3.5 **Firearms Range**

POLICY AND PROCEDURE:

4.3.1 Authorization: Weapons and Ammunition

Only those weapons and ammunition that meet the police department's authorized specifications as approved by the Chief of Police will be used by officers in law enforcement responsibilities.

Authorized Lethal Weapons

Officers on duty will carry the department issued firearm. Officers who are in an on-duty status may also carry a department approved secondary firearm.

Officers off duty may carry their department issued firearm or a firearm that does not conflict with any federal, state, local law, ordinance or resolution.

Officers while carrying a firearm off duty must have on their person or at hand proper identification, including department issued badge and identification card.

No officer shall carry any firearm while under the influence of alcohol and/or drug that would impair the officer's performance.

Firearm Specifications

- o Department Firearms
 - o Issued personal firearm shall be a Glock Gen 5 Model 45 – 9mm.
 - o Patrol rifle shall be an AR-15 style 5.56 NATO and/or .223 calibers.

o Secondary Firearm

- o Secondary firearms may be an approved revolver or semi-auto pistol of 38 special, 380 auto, 40 S&W, 45 auto or 9mm (9x19) caliber. The secondary weapon must be approved by a Department Firearms Instructor utilizing the Request to Utilize Secondary Firearm form.

Authorized Less Lethal Weapons

Officers may only use less lethal weapons within the scope of their employment and authority to use such weapons and then only with the degree of force necessary to affect the officers' lawful objective. Officers are prohibited from carrying or using any less lethal weapon other than those approved by the Chief of Police.

Expandable Baton

The current approved and issued expandable baton is an expandable baton of metal construction. The department will issue each officer an expandable baton. Uniformed officers shall carry on their duty belt the issued expandable baton in the issued baton holder.

Chemical Agent

The department will issue each officer an approved chemical agent spray for use. Uniformed officers shall carry on their duty belt the issued chemical agent container within the department issued chemical agent holder.

Larger quantities of chemical agents may be stored in each patrol supervisor's vehicle for use in large disturbances.

CEW

The department issues approved CEWs for use. Only properly functioning and charged CEWs are to be carried. Uniformed officers working road patrol will carry a CEW.

Bola Wrap 100

The department issues an approved Bola Wrap 100 device. Only properly functioning Bola Wrap 100 devices will be carried by trained officers.

Authorized Ammunition

Only department approved and issued ammunition will be used in any firearm carried by an officer in either an on duty or off duty status.

Ammunition Specifications

- Department Firearms Ammunition
 - 9mm Federal HST2 147 grain.
 - 5.56 NATO and/or .223 62 grain Speer Gold Dot.
- Secondary Firearms Ammunition
 - 9mm (9x19) 147 grain Gold Dot Hollow Point;
 - 380 auto 90 grain Gold Dot Hollow Point;
 - 40 cal. 180 grain Gold Dot Hollow Point;
 - 45 auto 230 grain Gold Dot Hollow Point;
 - 38 special +P caliber 135 grain Gold Dot Hollow Point;
 - 10 mm 200 grain.
- Training Ammunition
 - 9mm 147 grain American Eagle Full Metal Jacket Flat Point;
 - 5.56 NATO and/or 223 62 grain Full Metal Jacket.

Euthanizing Animals – Authorized Weapons & Ammunition

The following steps shall be followed:

- Request permission from shift supervisor to euthanize a sick/injured animal;
- Euthanize the animal in a safe manner and direction;
- Complete an incident report to include the following information: Supervisor granting permission, type of weapon and number of rounds used.

The handgun will be used to euthanize large animals such as deer that are sick or injured. The .22 rifle should be used on smaller animals such as raccoons.

Should the animal euthanized be small, such as a raccoon, officers will place carcass in a plastic garbage bag and transport to Day Heights Veterinary Clinic (5628 Wolfpen Pleasant Hill Road, Milford, OH 45150). If during business hours, officer will contact staff informing them of carcass and ask where to place it. After hours, officer is to place the bag at the rear of the building next to the rear door. Somewhere on the outside of the bag, officer needs to identify it as being from Miami Township Police Department.

The Miami Township Service Department (MTSD) will only remove deer carcasses from public right of way and will no longer remove deer carcasses from private property. Residents and businesses who report deer carcasses on their private property will have the following option available:

- The officer will respond to the address and confirm the deer carcass is not in the public right of way. If the carcass is in the public right of way, contact MTSD for the removal.

- The officer will contact Critter Gitter (513-316-2848) advising of the deer carcass removal along with the incident number (used for invoicing) and resident address.
- The officer will contact MTSD (513-248-3728) informing them a representative from Critter Gitter will be responding for the disposal of a deer carcass, at a pre-determined area. The officer will need to provide MTSD with the incident number (used for confirmation).

Review, Inspection & Approval of Weapons

Department Owned Firearms

Every department owned firearm shall be inspected by a department firearms armorer upon original receipt of the firearm, before placing the firearm in an operational readiness status. The inspection shall be made to determine if the firearm meets department specifications, is safe and in good working order. The armorer completing the inspection shall complete the Firearms Inspection Report form.

After issuance or being placed in an operational readiness status, department owned firearms shall be inspected by a department firearms armorer annually. This annual inspection shall be made to ensure maintenance and care guidelines have been followed and that the weapon is safe and in good working order. The armorer completing the inspection shall complete the Firearms Inspection Report form.

Secondary Firearms

A firearm that an officer requests to utilize as a secondary firearm must meet the department established requirements for such firearms. Prior to use in any capacity, the officer shall complete a Request to Utilize Secondary Firearm form. The secondary firearm shall be inspected by a department firearms armorer to determine that the firearm meets department specifications, is safe and in good working order. This inspection shall be documented on the request form.

After the initial inspection and approval by the Chief of Police, a department firearms armorer shall inspect approved secondary weapons annually. This annual inspection shall be made to ensure maintenance and care guidelines have been followed and that the weapon is safe and in good working order. This inspection shall occur at the annual qualification and be documented on the Firearms Qualification Report form.

Less Lethal Weapons

- CEW's are inspected upon initial issuance and by officers at the beginning of each shift.
- Expandable batons and chemical agents are inspected upon issuance and during each Less Lethal Weapon qualification.
- Bola Wrap 100 devices are inspected upon initial issuance and by officers at beginning of each shift.

Removal of Unsafe Weapons

Any department owned firearm found to be in an unsafe condition shall be immediately seized. A report concerning the circumstances shall be made and forwarded to the Patrol Division Supervisor.

Any secondary firearm found to be in an unsafe condition shall immediately revoke the authorization to utilize the firearm. A report concerning the circumstances shall be made and forwarded to the Chief of Police who shall rescind the secondary firearm authorization form.

No weapon, which is removed from use because of an unsafe condition, shall be returned to use until which time the unsafe condition has been corrected and a firearms armorer has inspected, test fired and approved the weapon for use. This re-inspection shall be documented on the Firearms Inspection Report form.

Any less lethal weapon found to not be functioning properly shall immediately be removed from service by the officer discovering the malfunction. A report concerning the circumstances shall be made and forwarded to the Patrol Division Supervisor.

No less lethal weapon removed from service shall be returned to use until the weapon is repaired or replaced.

Record of Agency Approved Weapons

Department Owned Weapons

A designated firearm/less lethal weapon instructor shall maintain a master list of department owned and approved lethal and less lethal weapons.

The designated firearm/less lethal weapon instructor shall forward to the Support Services Lieutenant and the designated Sergeant of uniform/equipment issuance, the make, model, serial number and location of the weapon or to whom the weapon was issued. The Support Services Lieutenant shall update the agency owned property listing. The designated Sergeant in charge of maintaining the officers record of issued uniform and equipment shall update the uniform/equipment issuance form.

Secondary Firearms

Upon approval of a secondary firearm, the Request to Utilize Secondary Weapon form shall be forwarded to the Training Coordinator, who shall place the secondary firearm approval form in the officers Weapons & Qualification training file.

Storage of Agency Authorized Firearms

Department authorized firearms are to be secured at all times. This includes when the weapon is on the officers' person, while in transport and at home.

Department firearms that are not issued are to be stored and secured in the department's armory.

Department issued shotguns and AR-15's are to be secured in their assigned vehicle utilizing the locking gun mounts (when applicable).

4.3.2 Demonstrating Proficiency with Weapons

Each officer will display understanding and proficiency through qualification and testing annually (firearms, CEW and Bola Wrap 100 – if assigned) or biennially (expandable baton & chemical agent) under the department use of force directive to be authorized to carry or use any firearm or less lethal weapon.

In addition to any other qualification for proficiency, each officer must achieve a minimum of score of 90 percent on a written test that covers the police department's directives on the use of force. This written exam will be administered no less than once each year in conjunction with use of force training and proficiency qualification.

All sworn personnel, upon hiring and during Phase One of the Field Training Program will display understanding and proficiency through qualification and testing under the department use of force directive to be authorized to carry or use any firearm or less lethal weapon.

Firearms Proficiency

Annually, each officer will qualify with all department issued firearms (if assigned) and approved secondary firearm. The firearm qualification course will be drawn up by the department firearms instructors and will be approved by the Chief of Police. Qualification courses shall require the officer to use the weapons in the same manner as they are accustomed to using them. No less than once each year the course of fire will at a minimum meet the State of Ohio minimum firearms qualification guidelines.

Less Lethal Weapon Proficiency

Annually, each officer authorized to carry a CEW and/or Bola Wrap 100 device (if assigned) will demonstrate proficiency with it/them.

Biennially, each officer will demonstrate proficiency with the less lethal weapons: expandable baton & chemical agent.

The less lethal proficiency requirements will be drawn up by certified less lethal weapon instructors and will be approved by the Chief of Police.

4.3.3 Annual/Biennial Proficiency Training

Annually, each officer will qualify with all department issued firearms (if assigned) and approved secondary firearms.

Annually, each officer authorized to carry a CEW and/or Bola Wrap 100 device (if assigned) will demonstrate proficiency with the it/them.

Biennially, each officer will qualify with the less lethal weapons: expandable baton and chemical agent. This qualification includes testing in weaponless control techniques.

A certified weapons or tactics instructor shall monitor firearm, less lethal weapons and weaponless control techniques testing and proficiency.

The results of all firearms, less lethal weapons and weaponless control techniques proficiency and testing shall be in writing and the results shall be filed with the department training coordinator.

Officers who fail any of the following shall not be authorized to carry such weapon until which time they have successfully completed a course of remedial training under the instruction of a certified weapons or tactics instructor.

- Firearms
 - Failure to obtain a qualifying score with all issued & secondary firearms;
 - Failure to pass the written test as provided in this directive;
 - Failure to display proficiency in the handling and care of firearms;
 - Failure to attend an annual qualification and testing.

- Less Lethal Weapons
 - Failure to obtain a passing score with less lethal weapon proficiency testing;
 - Failure to pass the written test as provided in this directive;
 - Failure to attend an annual (CEW and/or Bola Wrap 100) or biennial (expandable baton and chemical agent) qualification and testing.

Officers after receiving a course of remedial instruction in the areas where they failed to meet the department's required qualification guidelines and who after receiving such instruction continue to fail qualification and/or proficiency testing with their issued weapons or the written test, will be referred by the certified instructor to the Patrol Division Supervisor with a recommendation for medical evaluation, additional training, recession of privilege to carry the weapon or disciplinary action. The Patrol Division Supervisor shall within forty-eight hours of being notified of such deficiency, review each officer's individual circumstances and make a written report as to the most appropriate course of action to be taken. The Patrol Division Supervisor shall guide his action and decision toward bringing the deficient officer into compliance with the department's weapon directive requirements.

Retired Officer Annual Application/Qualification

Miami Township Police Department offers an annual qualification process for retired Miami Township officers. The Range Master or his retired designee will make an annual notification to retired officers which will include range location, date, and time for qualification.

Retired Miami Township officers will complete all necessary paperwork required for qualification. The retired officers' documentation will be maintained with department firearm records.

4.3.4 Prerequisite to Carrying Lethal/Less Lethal Weapons

Each officer will display understanding and proficiency through qualification and testing during phase one of the field training program and thereafter, annually (firearms, CEW and Bola Wrap 100) or biennially (expandable baton, chemical agent & weaponless control techniques) under the department use of force and use of deadly force directive and policy statements to be authorized to carry or use any firearm or less lethal weapon.

A receipt showing that an officer has access to, has read and understands the police department's use of force and use of deadly force directive and policy statements will be signed by the officer and maintained by the training coordinator as indicated.

- Upon initial employment;
- Upon any revised issuance of this directive.

4.3.5 Firearms Range

Purpose Range Utilized

The Miami Township Police Department utilizes various firearms range locations. The purpose of utilizing the firearms range is to provide firearms training to sworn or retired officers of the Miami Township Police Department. The firearms range will be used for approved law enforcement training and qualifications. The firearms range will first be approved by a firearms instructor to determine any range restrictions before the start of any training. Law enforcement personnel or authorized participants of the training are the only individuals allowed on the range during any of these events.

Safety Procedures and Range Rules

Range rules may vary depending on the managing entity. However, documented safety procedures and range rules will be reviewed with all participants prior to any training event. The department's Firearms Instructors oversee range discipline. Officers failing to comply with the rules of the range could be requested by the department Firearms Instructor(s) to leave the range and be subject to disciplinary action. Standard safety procedures utilized by departmental firearms instructors include:

- Eye and ear protection are mandatory and will be worn at all times when on the range.
- Body armor will be worn at the discretion of the Range Master/Firearms Instructor while the firearms range is in use.
- Handle all firearms as if they were loaded.
- Keep your firearm pointed downrange.
- Weapons will not be loaded until the command to load is given by the Range Master or Firearms Instructor.

- No person shall advance forward of the firing line until the line has been declared clear and safe by a range officer.
- The firing line will be considered safe by the range officer when all weapons are unloaded or holstered.
- Carelessness and horseplay are prohibited
- Keep your finger out of the trigger guard until you are ready to fire.
- Shooters will only shoot from designated areas.
- Shooters will only use ammunition and targets authorized by policy and the training section.
- All injuries will be reported to the firearms instructor or supervisor on duty.
- Cease fire should be called by ANYONE who observes an unsafe condition.

Range Supervisor

The range will be under the exclusive control of the Firearms Instructor(s). All members attending will follow the directions of the Firearms Instructor(s). The instructor(s) will maintain a roster of all members attending the range and will submit the roster to the Training Coordinator after each range date. The Firearms Instructor(s) have the responsibility of making periodic inspections, at least once a year, of all duty weapons carried by officers of this department to verify proper operation. The Firearms Instructor(s)/Armorer has the authority to deem any department-issued or privately owned firearm unfit for service. The member will be responsible for all repairs to his/her privately-owned firearm. It will not be returned to service until inspected and approved by the Armorer. The Firearms Instructor(s) has the responsibility for ensuring each member meets the minimum requirements during training shoots, and on at least a yearly basis, can demonstrate proficiency in the care, cleaning, and safety of all firearms the member is authorized to carry.

The Firearms Instructor(s) shall complete and submit to the Chief of Police and Training Coordinator documentation of the training courses provided. Documentation shall include a lesson plan of the training provided and a list of each member who completes the training. The Firearms Instructor(s) should keep accurate records of all training, qualifications, repairs, maintenance, or other records as directed by the Chief of Police and/or Training Coordinator.

Authorized Weapons, Ammunition, Targets and Equipment

Only Miami Township Police Department approved weapons, targets, ammunition, and equipment will be used during any firearms qualifications and training.

Required Safety Equipment

All personnel on the range shall wear hearing protection. All shooters on the line shall wear hearing and eye protection, as well as a ballistic vest. A first aid kit, fire extinguisher, portable radio, and cell phone will remain readily accessible at all times while there is training at the range. Any injuries sustained during training at the range shall be immediately reported to the Firearms Instructor(s) or range staff. Written notification will then be provided to supervisory personnel.

Training and Certification Requirements for Range Instructors

All personnel working in the capacity of a Firearms Instructor shall complete the appropriate training to be a certified Firearms Instructor. Firearms Instructors shall receive emergency medical response training and/or first aid training.

Storage of Ammunition and Weapons

All personnel are responsible for the weapons and ammunition issued to them. Firearms and ammunition shall be worn or stored appropriately and safely at all times. All authorized ammunition being stored at the Department must be secured (padlocked) in a police officer's assigned locker or be stored in the armory.
