dc_draino Police in Columbus, OH were called because someone was threatening others with a knife. Bodycam footage from one of the 1st officers on scene showed that upon his arrival some of the girls started fighting almost immediately. One tried to stab another with a large knife and an officer shot the violent girl 4 times, killing her before she could mortally harm another. Thankfully, the victim was completely unharmed. It’s a tragedy that the knife-wielding suspect was a teenager, but there was almost no way to know that and she made a horrible decision that cost her life. Regardless, an innocent life was saved.

How She Died
around 3:45 p.m. Some sites gave her name as Makiah Bryant, Makiyah Bryant, or Makhia Bryant, but her mother confirmed to 10tv reporter Lacey Crisp that the correct spelling is Ma’khia Bryant. Other reports gave her age as 15, but her mother told local journalists she is 16.
Screengrab from the Columbus bodycam video. Police & the mayor say the girl in black was attempting to stab the girl in pink. Officer shot the girl in black just after this.
