Herb this is William Beach. My ankle monitor keeps vibrating and won't charge when I plug it in. There's a small tear in the charger cord, I think it's broke. What do you want me to do

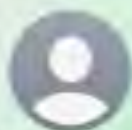

How did it get a tear?

I have it plugged in beside my couch

Sir,

U still on Beach situation?

It has been resolved. Thank you for the help sir.

If they take to a mental facility, they can leave monitor on him or I'll stop by JCCF and remove. I'm on jackson for the next hour .

I see he's being transported north. Do u know which facility they are taking?

These facilities aren't very good about keeping us informed and many times just releaslo

Releasing without notifying us

Oops, I tracked him to the Montgomery County Morgue. I know that area.
