On August 20, 2022, Ohio Bureau of Criminal Investigation (BCI) Special Agent (SA) Chad Holcomb, SA Aja Chung, SA Ed Staley and SA Sarah Taylor were assigned to assist the Knox County Sheriff's Office with an officer involved critical incident (OICI). It was reported that a male, Randy Wilhelm (Randy), had a warrant for his arrest after failing to comply with the terms of his bail. A bail bondsman attempted to contact Randy and the bail bondsman was reportedly shot at (see report by SA Taylor) during the late evening of August 19. Multiple SWAT teams responded to the Wilhelm property where it was reported that Randy and his brother, Bradley Wilhelm (Brad), were firing weapons at law enforcement. Due to their history with law enforcement, multiple SWAT teams responded to the Wilhelm property. SWAT operators from the Delaware Tactical Unit (DTU) and an officer from the Mansfield Police Department discharged their firearms during an interaction with both Brad and Randy. Brad and Randy were shot and pronounced deceased at the scene. It was determined that the BCI Crime Scene Unit would process the scene and the BCI Special Investigations Unit would handle the investigation.

Agents arrived at the scene around 1200 hours where multiple SWAT teams and bomb squads were actively secured the scene. SA Holcomb was informed that a search warrant for the approximately 300-acre property had been obtained and that the scene was secure. Agents began processing the scene at 1430 hours. The large property had three houses. Randy lived at 15159 Monroe Mills Road, Brad lived at 15502 Gilchrist Road and their mother, Sandra Wilhelm, lived at 15266 Gilchrist Road. There were multiple barns and outbuildings scattered throughout the property. The scene was photographed as it was upon arrival. A drone was also used to further document the property and a Sokkia total station was used to collect measurements.
