On January 30, 2026, Ohio Bureau of Criminal Investigation (BCI) Special Agent John Tingley (SA Tingley) reviewed the Elyria Police Department (EPD) Computer Aided Dispatch (CAD) report related to the January 21, 2026, officer involved critical incident (OICI) which occurred at 24496 Clareshire Drive, North Olmsted, Cuyahoga County, Ohio.

The listed CAD entries do not list all of the CAD entries in the report that covered the time during or after the incident or the pursuit that occurred prior to the OICI. Rather, the information listed are the CAD entries that were deemed by the author to be the most relevant and useful in obtaining an understanding of the EPD CAD Report related to the OICI.

It should also be noted that the large breaks in the times of the documented CAD entries are when the pursuit was occurring and the units involved were calling out the speed, direction of the pursuit, traffic volume, and roadway conditions (wet, dry, etc.).

The EPD report incident number is listed as [REDACTED] and begins with the first entry at 15:03:03. The following excerpts are taken directly from the EPD CAD Report and are placed in order from the earliest to latest to assist with the understanding of the events that occurred. The listed excerpts are shown as a word for word copy of the entry and appear as they are documented in the CAD Report.
