**Narrative:**

On Tuesday, April 13, 2021, Ohio Bureau of Criminal Investigation (BCI) Special Agent (SA) Matt Collins (SA Collins) received video footage from City of Columbus-Division of Police (CPD), Sgt. SA Collins created sub-clips and marked images (still shots) during the review. SA Collins marked ten (10) frames/images from Ofc. Howe's BWC. The images were named by the frame number identified by iA (F=Frame, F#####). In this report, SA Collins included the marked images that consisted of areas where SA Collins made his own markings to provide an area of focus. During the review, the following was noted:

As Officers Krichbaum and Howe struggled with Jackson, a gunshot was heard. SA Collins noted the frame just before the shot was heard (F3113) and the two frames that followed (F3114 and F3115). Also included, is a photo provided by BCI CSU agents relative to the trajectory of a projectile removed from the wall within the room of the shooting. *Figure 3.*

Officer-Involved Critical Incident- 500 S. Cleveland Ave, Columbus

SA Collins created two sub-clips within Ofc. Howe's BWC video. Those sub-clips are specific to the two distinctively separate shooting instances. They were titled, "***Initial Shooting Incident\_Initial Shooting Subclip.mp4***" and "***Second\_Final Shooting\_Second Final Shooting Sibclip.mp4***". SA Collins also concatenated the two sub-clips. In doing so, the viewer is able to view the two sub-clips continuously.

The images were added to the Matrix case file while the thumb drive containing the video footage was submitted to the physical BCI case file as a reference only item.
